Mushrooms
using retired beach
umbrella

500 mushroom bags per tent

Mushroom tents under umbrellas

The Bamboo School introduces
a new way of cultivation
for people who do not own land

Cantaloupe

Fruits & vegetables grown in recycled plastic bags

New Method

Cantaloupes grown in recycled plastic bags on any surface

Sand

Gravel

Rocks

Concrete

Young cantaloupes and vegetables grown in recycled plastic bags

Young vines

Cantaloupes ready for harvest after 2 months

Out of Season Lime in septic tank cement rings

**Starving trees of water for 20 days
in September**

Explosion of lime flowers after 20 days of fasting

Matured Limes

(March – May)

Improving productivity around lime trees

By adding 10 bags of vegetables

... 14 bags of vegetables

... 25 bags of vegetables

... 33 bags of vegetables

... 50 bags of vegetables

Much higher productivity around lime trees

700 vegetable plants per 2.5 Sqm. each year
(100 bags x 7 cycles)

Vegetables grown amongst weeds and partially flooded land

Recent Innovation Ready for Rainy Season

Quick return on investment

Bean sprouts, crickets, frogs,
ant caviar, vegetables
