*Caregivers are trained in caring for
the children as a mother would,
providing emotional bonding and
developmental support.*

MISSION

Global Family Village's mission is to help
disenfranchised children reach their
full potential through family-centered,
community based homes; to thrive and
become productive members of society.

GLOBAL FAMILY VILLAGE

Bungamati Family House

Global Family Village-Nepal (GFV-N) is partnering with the Cooperative Society of Bungamati, and the Bungamati community in Nepal, to transform an institutional hostel into a community-based, family-centered House. Focused on creating family units with trained caregiver “mothers” and surrogate community-based “grandparents” the house will become home for the orphaned and disenfranchised as well as community children who may need a stable family environment. The children will live in ‘families’, attend local schools, play with local children and become integrated into the community.

All children deserve a family..

So many advantages...

- The children will have the opportunity to go to school in their own community.
- A health care clinic exists near the house.
- The children have access to an outdoor play area.
- The house has land that will provide for a kitchen garden. Produce can be sold for income.
- The house is located outside Kathmandu city but still within the valley for easy access.
- The house has ample room for a few families (up to 8-12 children each).

*Hope for orphans in Nepal
begins with family and community*

The Bungamati Family House offers programs for the community including an Early Childhood Development program and nutrition education. Global Family Village-Nepal (GFV-N) engages with the community to assess how to best contribute to the local schools to help improve the children's education and further integration.

GFV-N helps the community to establish income generating activities so they can increase their capacity and contribute to the sustainability of the House.
