

# PROGRESS REPORT

## RECOVERY AND EDUCATION

### FOR INDONESIAN CHILDREN

*Issue: September 2006*

#### Traumatic Healing Assistance

Assistance activities for earthquake victim children continuously do at some places. Now we are doing assistances at Sendangtirto Village, Sub district of Berbah, Sleman and Wirokerten village, sub district of Banguntapan District, Bantul.

The aim of our activity is make the children happy and fun. The method we use is playing a game and competition.

Results felt by children were:

- They were very enthusiasm to participate on the game
- They were happy and fun
- They hope for prize if they won the game. (*actually; they all get a prize*)

Situation on field:

Children's smile before the competition

Ball race.....

Get coin on "**black watermelon**" (covered by soot)

Ohhh...my black face...

"Miss, I follow the game....!" They shout, they wanted to join with us..

"I must win!!" in order to get the prize

Breaking the water in the plastic..." I cannot hit the water...if my eyes closed.

With a hard spirit they race to fill in the yarn in to needle with walking on....  
"Hard to concentrate....uh...it's very difficult...!)

Bag race..... .. ups... I'm falling down!!!

The race not just for the boy.....!!

Here above our brief progress report as a communication media for us...
