

KHUBA International

Helping Kids Change the World

KHUBA International

KHUBA International

...the premiere resource for children and families of every country of the world to better understand and serve their counterparts internationally, fostering world-class citizenship.

Our mission is to give children worldwide the various tools, support, motivation and rewards necessary to become responsible, knowledgeable and caring world citizens.

KHUBA International

KHUBA International

KHUBA International is an educational enrichment company for kids aged 3-17 and their families.

We help kids become engaged, knowledgeable, caring world citizens through their participation in interactive online learning as well as hands-on, real-world, badge-earning activities within five central themes:

KHUBA International

KHUBA International

We create programs for our members to learn how to be wise and caring ***stewards of the environment*** at home and in their travels domestically and all over the world; we customize ***community-building*** activities for our members, helping them to become in-the-know, vital members of their local communities; we create ***cultural exchange*** programs where members learn about cultures different than their own and share their own unique cultures; we create opportunities for our members to live out their ***commitment to others***, serving those in true need all around them and throughout the world; and we promote an increased level of ***personal excellence*** via our rewarding of the progress of our members in their personal areas of interest.

KHUBA International is in the business of creating renaissance kids – kids who aspire to greatness every day – kindling their inner fire to become great global citizens.

KHUBA International

KHUBA International

Programs designed to entertain, inform and inspire children to be renaissance kids. Programming is built around key learning themes: community-building, environmental stewardship, cultural exchange, service to others and personal excellence.

Programming Highlights

- Releasing turtles into the ocean at key international partner sites
- Reading aloud to younger children
- Hosting international dinners
- Shopping and cooking for the elderly
- Deliver groceries to the housebound
- Feed your neighbor day
- Improve in the area of focus of your choice
- Scholarships available for low income families to travel abroad in cultural exchange programs
- Composting labs
- Urban garden plantings

Cultural Exchange

Environmental Stewardship

Personal Excellence

To Children...

...we offer a well-rounded education based on active, participatory learning and experiences. As opposed to passive learning. We offer a platform from which kids learn to build a foundation of love, care and service to others. We help them build an attitude of selflessness and excellence.

We offer an education with a real-world impact. Hands-on, experiential-based learning alongside professionals in the field. All this is enhanced and supported by robust on-line curricula and self-paced technologically-advanced modes of learning and self-expression.

We offer tangible encouragement – encouragement that kids can touch and feel a sense of accomplishment with, via a system of consistent rewards. We offer the discovery of new things, Supporting and fostering the kind of life values that will make kids stand out from the crowd.

KHUBA International

To Parents...

...we offer the comforting knowledge that their children are becoming more self-motivated and self-assured. Parental pride surges when they are convinced that their children are receiving a uniquely first-rate education, rather than just being pushed through a brick and mortar system with precious little one-on-one time spent with educators.

While on vacation, parents also take comfort knowing that their kids are able to continue their studies abroad, doing something worthy of sharing on their return. We also provide a challenging and energizing platform of parental engagement and unique partnership opportunities that assist parents in their connections with their kids as they explore new horizons and participate in unique activities together.

KHUBA International

To Families...

...we offer a deeper integration into the local community, where families can meet and get to know new families and forge new connections both locally and abroad.

KHUBA International helps solidify and unify the home life of participating families. Families share the world together as they pursue world-changing endeavors in common.

KHUBA International's goal is to give families opportunities to act on and deepen their sense of purpose together.

KHUBA International

To Communities...

To local communities, we offer, over time, an increase in the education level of residents, a lower crime rate, and a more robust service environment.

Those in need in the community will be better served. Their residents will be higher achievers. It will be the kids that put their towns on the map.

KHUBA International

To Educators...

To the education community, we offer alternatives to the brick and mortar avenue of learning. We offer higher-achieving students who are more adept at working in teams, more fluent in current events, more linguistically intelligent, more sensitive to the needs of others, and harder working.

Better test scores in math and science due to the extracurricular lab work and hands-on experience working on environmental stewardship and sustainability pursuits, as well as higher linguistic ability due to the higher level of written communication required to earn *Global Achievement Emblems*.

KHUBA International

Access for All Families...

To low-income families we offer scholarships which afford opportunities to travel the world and gain valuable hands-on learning experiences which will help your children navigate successfully through a highly-competitive educational environment back home.

We offer the kinds of experiences that will help financially-strapped families to position their children in favorable ways to gain entry into the best colleges and universities in the world.

Most importantly, KHUBA International is committed to helping generate and maintain a high level of enthusiasm and zeal for lifelong learning that will enable the children of low-income families to escape the lure of drugs, crime and gangs, rising above the life's hurdles to become solid, well-rounded citizens of the world with a lot to offer and a lot to celebrate.

Built in to the KHUBA International scholarship program, is a requirement to give back to new scholarship beneficiaries upon successful matriculation.

KHUBA International

Tomorrow's Leaders

We offer children active involvement in the solutions to the world's most pressing problems. Through exploration and active study on trips abroad, young people will have meaningful experiences that are infused with a deep appreciation and respect for nature and an understanding of how to live more environmentally responsibly when they return home.

The children of today are tomorrow's world leaders. We help today's children to know what it is to do their part to protect theirs and others' environment.

Our goal is to affect an increased level of peace, unity and mutual understanding on a global level via cross-cultural exchanges and the propagation of an attitude of habitual international service in all children worldwide.
