

OUR WORK IN 2013

120 STUDENTS

On September 7, 2013, we opened the MTM Academy, Liberia's first tuition-free, all-girls school. We provide 120 students a core educational curriculum, a robust after school program, and two hearty meals a day.

120 HEALTHY GIRLS

We dewormed 120 girls, treated 38 cases of malaria, and sent 14 students to the hospital for more intensive treatment.

1ST SCHOOL COMPUTER LAB

Our Academy is the first school in Monrovia to have a computer lab! We have 30 donated Google Chromebooks and free internet from Novafone.

10.4 STUDENT TEACHER RATIO

That's akin to an elite private school in the U.S.

92% FEMALE TEACHERS

Ninety-two percent of our teachers are women, showing our students that female leaders not only exist, but are also a necessary part of their country's development.

#1 WAY TO HELP

When asked what the #1 way Americans can help Liberia, President Ellen Johnson Sirleaf said, "to support More Than Me and get all these girls in school!"

3x MORE REVENUE

We're growing fast! Our budget tripled from just over \$200,000 to over \$600,000.

1000s OF PARTNERS

Our partners include Chase Bank, Microsoft, GlobalGiving, Ford, Nike, University of Michigan, Morris Family Foundation, British Embassy in Liberia, Malag Clinic, Rebuild Africa, The International Rescue Committee, Ministry of Health and Social Welfare, Novafone, Population Services International, and over 1,000 individual donors.

10,000 INSPIRED PEOPLE

Macintosh is a native of the West Point slum in Monrovia, and Katie considers him a co-founder in spirit. On his first trip ever to the USA, Macintosh told his story to over 10,000 people. From being abducted as a child soldier to devoting his life to girls' education, Macintosh's story touched the lives of everyone he met.

HOW THE ACADEMY STACKS UP

LIBERIAN SCHOOLS

MTM ACADEMY

STUDENT TEACHER RATIO

- 23.8. students per teacher.

- 10.4 students per teacher (akin to an elite private school in the U.S.)

CLASS SIZE

- In Monrovia, there are 76.5 primary school students per classroom (on average).

- Our largest class has 26 students in it.

LIBRARY

- Only 11% of schools have a library.

- Our Busy Bee Library will open in February 2014

ELECTRICITY

- 6% of primary schools have electricity.

- We've had electricity since Day 1.

SCHOOL NURSE

- 2.7% of primary schools have a school nurse.

- Not only do we have a school clinic and a school nurse, but we have dewormed 120 students, treated 38 cases of malaria, and referred 14 students to local clinic/hospitals for more intensive care.

COMPUTER LAB

- 3.1% of schools have a computer lab.

- We received 30 donated Google Chromebooks, donated internet from Novafone, and hired an IT Manager to teach students and staff computer classes.

FEMALE TEACHERS

- 14.5% of teachers are women.

- At MTM, 92% of our teachers are women, showing our students that female leaders not only exist, but are also a necessary part of their country's development.

TEACHER TRAINING

- Just over 50% of primary teachers receive some sort of teacher training before entering a classroom.

- 100% of MTM teachers receive training.
