## Preamble

Bengaluru is India's fifth-most populous city. Also known as the Silicon Valley of India because of its position as the nation's leading Information technology (IT) exporter. The city is amongst the top ten preferred entrepreneurial locations in the world.

It is a common sight in Bangalore like any other metros to see children with torn clothes, scattered hairs with the eyes full of hope and lacking parental love and care. In order to provide these promising children the basic needs and good future. Nele was started in the year 2000 by HSP to rehabilitate these destitute children.

## About NELE

**NELE** has been a ray of hope to many young lives from past 11 years. It rehabilitates destitute children such as rag-picker, beggars, orphans and any other needy and neglected. It has touched many hearts and changed many lives. The road travelled by Nele has seen many success stories. It has made them self-reliant. The future plan of Nele is to empower thousands of children who are on the streets and who otherwise may end up anti-social elements.

Nele not only rehabilitates underprivileged children, but also conducts different community oriented projects in the locality. Nele has setup a vocational training centre empowering women and youth neighbourhood.

So far, 10 centres have been established, 6 in Bengaluru and one each at Mysore, Tumkur & Shimoga. Over 300 Boys and Girls have found caring homes in these centres.
