

Suggested Ways to Help Take [Educate the Next Generation of Leaders in Freetown](#) to the Next Level

1. **Include us** in your year-end plans and make a special donation before the end of the year.
2. **Sign up** for monthly / recurring donations. This would be a great New Year resolution ... and way to start off the New Year. We recommend \$25.00 to \$30.00 monthly (less than a dollar a day).
3. **Invite** all your friends, family members and co-workers to donate towards this project. If each of you could convince two humans, a friend, a sibling, a partner, boss or co-worker, a plumber, a student (you get the idea) to donate a minimum of \$10 each (more is always welcome), this would be tremendous.

You can help educate the next generation by spreading the word... and eventually someone who can donate funds will. If we don't spread the word, then we won't raise the awareness or funds we need to do our part to enlighten the next generation. Send an email now to all your friends - telling them you support this project.

4. **Want a unique gift idea** for this Christmas or your birthday next year? Consider asking people to give towards this cause in your honor / on your behalf or to give you a GlobalGiving gift card. This would be better than requesting a gadget or something that you might forget in several months. This gift will be a permanent investment into the next generation.

Response to Your Questions (FAQs)

Here are answers to a few questions that I was asked during the campaign. I thought it would be beneficial to share them - for the benefit of others.

Question: Will additional donations be accepted after the initial November goal.

Answer: Yes, you are welcome to make additional donations at anytime.

Question: Does the site support recurring or periodic donations?

Answer: Yes, recurring donations are supported. This makes it easy for you to extend your impact - make automated and convenient donations. We recommend this so you will have one less thing to remember or do. 😊
