# OMSI

OREGON MUSEUM OF SCIENCE AND INDUSTRY

# SEE THE POSSIBILITIES

Over 200 interactive exhibits for all ages.  
Five unique halls and eight hands-on science labs:  
chemistry, physics, watershed, paleontology,  
life sciences, lasers, technology, and more!

## HALLS, LABS, & ATTRACTIONS

### EINSTEIN

JUNE 26, 2010–SEPT. 26, 2010

View the world through Albert Einstein's eyes—you'll be amazed at what you see!

### IDENTITY: AN EXHIBITION OF YOU

SEPT. 25, 2010–FEB. 6, 2011

What makes us unique? What do genes really determine? Explore the complex physical, psychological, and social factors that add up to ... you!

### DESIGN ZONE

OCT. 23, 2010–MAY 30, 2011

Create music, video games, skate parks, and laser light shows, all using the coolest design tool out there—math!

### LOST EGYPT: ANCIENT SECRETS, MODERN SCIENCE

JAN. 29, 2011–MAY 1, 2011

Examine real human and animal mummies, tomb art, facial forensic reconstructions, CT-scans, and funerary artifacts. Decode hieroglyphics or build your own pyramid!

### SAMSON: THE COLOSSAL T. REX DISCOVERY

THROUGH JAN. 2, 2011

Get up close and personal with a magnificent 39-foot fossil of Earth's most fearsome Cretaceous carnivore. SAMSON is one of the most complete *T. rex* skeletons ever discovered—and never before displayed in any museum.

### EXHIBIT HALLS AND SCIENCE LABS

Connect with hundreds of dynamic exhibits in five unique halls—including Earth Science, Life Science, and Turbine Hall. Visit Science On a Sphere (SOS), a four-dimensional learning experience that projects animated images of the Earth's land, oceans, and atmosphere. Get hands-on with eight interactive science labs: chemistry, physics, watershed, paleontology, life sciences, lasers, technology, and more!

### SCIENCE PLAYGROUND

A vibrant exhibit hall for visitors six and under. Water, sand, nature play, art, and more—all in a safe, contained space with family restrooms and a private nursing area.

### OMNIMAX DOME THEATER

Five-story domed screen, surround sound, and IMAX® projection system. Matinee and evening shows.

### KENDALL PLANETARIUM

Explore the galaxy or watch a laser show in the Northwest's most technologically-advanced public planetarium.

### USS BLUEBACK

Climb aboard and tour the U.S. Navy's last non-nuclear, fast-attack submarine.

### CAFÉS

Refuel with freshly prepared, locally sourced meals at our river-view café or pick up coffee, beverages, sweets, and movie snacks at Galileo's.

### OMSI SCIENCE STORE

Science kits, books, globes, telescopes, educational toys, puzzles, t-shirts, souvenirs, and more.

**PLUS:** Year-round special events on a variety of topics, from reptiles to robotics. For details, check [omsi.edu/events](http://omsi.edu/events)
