

Your Involvement

With your involvement and support, positive change can occur for these innocent young girls and boys, making a huge difference.

Over and over, we have seen dramatic changes take place for whole villages as we begin to work on our projects.

The response is always overwhelming. Wherever the project, whether meals and an education center, a skill training facility or the rescue of helpless boys and girls, we see amazing success that brings lasting change for many lives.

Your involvement is all about funding a dream for someone who will never be able to pay you back. But the smiles in the faces of these precious children are priceless.

Who We Are

Serving Our World is dedicated to improving the lives of neglected children in remote communities all over the world. It has been our experience that humanitarian relief seldom reaches the distant areas or village members, yet sometimes, they are the ones who need it most.

The Mission of Serving Our World is to bring relief to all ethnic groups, especially focusing on orphans and abandoned children and families in remote areas of the world. Moving people toward a new vision and enabling them with the skills and resources for a brighter future.

For us, every individual counts, whether in an area of great media coverage or not, we believe that ethnic communities around the world would benefit from being a part of the Serving Our World Family.

Our focus on the community helps us to have a wider reaching impact in the lives of children and families made vulnerable through war, disease and circumstances beyond their control.

Make your donation by sending it to the address below or on our secure online web site. Please make your contribution today—so many are waiting and hoping for someone like you to care.

Serving Our World

Touching Lives, Building Futures

Child Rescue • Children Outreaches
Good Life Home Centers & Campuses
Birthing Centers • Village Outreach
Children's AIDS Hospital & Clinic

Serving Our World, with your help, can make a lasting and monumental difference. The projects we provide are feeding programs, day centers, homes, clinics, and much more. We need you to accomplish this and no donation is too small.

Communities

Our passion is to go into areas where poverty has crippled whole communities. Serving Our World brings to these villages meals and education programs, children's homes where needed, as well as support in starting micro-business centers which provide opportunities in skill training. We have witnessed first hand the profound effect that hope for the future brings to these very remote locations, allowing these people to dream of providing for themselves and their families. But only with your involvement and support, can this miraculous change come about for whole communities!

Children

Our top priority remains "CHILD RESCUE". Each year, in Thailand alone, 200,000 children, ages seven to fifteen, are sexually exploited and trafficked. That is a staggering 23 children every hour!

Serving Our World has built homes called the "Good Life Home" out where these children are so easily preyed upon. Our homes are a safe haven providing meals, education and skill training, giving each child a chance to succeed in life! To continue this initiative requires compassionate supporters, like you, as a part of the solution in this important rescue effort for so many innocent girls and boys!

Families

Today there are countries where fifty percent of children die from malnutrition before they ever reach their 5th birthday. In Africa, an estimated 12 million children have lost one or both parents to AID'S. Clearly families are in desperate need of help.

With countless obstacles facing many widows and single parents, families are struggling to survive. As Serving Our World reaches out with desperately needed care, we are beginning to see families become strong and healthy. The projects we offer are feeding programs, homes, clinics and birthing centers in remote, out-of-the-way villages. Serving Our World is providing the foundation for families to survive and thrive together!
