

## Walking with our Talk...

Walking and talking non-stop is possible and relatively easy. Visualizing a goal, putting it into action, giving it a language and style and verbalizing it through 'talk' is difficult. 'Walking with our talk' or putting into action our talk means Commitment, Belief and Passion towards the goal that must be achieved. This requires a lot of courage, trust and hard work.

While we are on our journey we will be sharing with our donors and friends this fantastic experience where we have found fellow travellers who also have the same vision of helping bring about a more balanced society by enhancing opportunities for the marginalized neglected community. Our beginning is based on the belief that 'small is beautiful.' We will be committed, passionate and raring to go with a goal to achieve.

### About RDOET (HAO India)

## **RDOET in Action**

RDOET have Identified 100 neglected marginalized Girl children in four areas in and around Hyderabad Urban Slums. We have provided awareness seminars for the parents and local leaders in addressing the situation of educating Girl child. Before the school academic we conducted "Back to School Awareness Program" (Rally) for the target areas. Our aim is to enrol 100% in school children dropout and school age children. We established Pre-School Educational Centres to provide quality education for identified girl children. Distributed educational needs and school materials for identified children in target areas.

## **What Awareness Can Do!**

- Ensure quality education to marginalized children who are deprived of education to enable them read and write independently with comprehension.
- Provide awareness to Parents and local leaders to feel their responsibility in educating the children for living a meaningful life.
- Organized Back to School Rally before the school academic to enrol 100% attendance in schools.

## **Identified Girl Child**
