

SHERZAI'S VIDEO TRANSLATION

In the name of merciful God. I'm Sherzai. I am a skilled cleaner. My idea is to have a team of skilled workers and relevant cleaning equipment for the cleaning of offices and houses. Because of the cleaning services I offer, people will have a clean environment and a clean living. The cleanliness situation is really worrying in Afghanistan and threatens people's health. It's clear from today's knowledge that having a clean environment guarantees health. Seven interested workers have promised to work for me on the first cleaning team. My services are better than what is currently offered in Afghanistan. Three years from now I will have 300 workers and equipment. The money raised by your vote will help me buy a minibus and some other automatic cleaning machinery for the first cleaning team. Please vote for me because I want to help Afghans have a clean environment, and a healthy and prosperous life. I want your vote for cleanliness and peace. Peace for all.
