### ABOUT THE CHILDREN :

It is a special day for children. This provided a extra large celebration with all the eatables. They are over joyed. The children are poverty stricken, down trodden, their dwelling places are in the rocky areas of lofty mountain rocks. Parents are basically stone cutters earning meagre amount as their livelihood. Most of the children population is from SC dalits, lambada's. Once upon a time their livelihood was within the forest region. A little

improvement to the children in particular is educating themselves in Government Schools, NGO's supporting indirectly through Globalgiving. The children are healthy, happy after completing nearly a year. Wow, what a tremendous improvement in all around personality of children. Parents are also very happy to see their children and are grateful to you for the kind support.
