

Creating *life*-changing independence for people with disabilities.

Imagine not being able to open a door. Answer the phone. Hear a fire alarm. Or even pick up a pencil. Think what it would be like to have people stare at you because you're in a wheelchair. Or feel isolated and alone because you're "different." These are the kinds of challenges many people with disabilities face daily.

Put a Canine Companion assistance dog in the picture, and everything changes. Thanks to the physical tasks the assistance dog performs, lives are suddenly filled with new promise and potential.

*"Arrow is the best thing that's ever happened to me. He's my best buddy."*

—Brian and Skilled Companion Arrow

### Follow us

Canine Companions for Independence® founded in 1975, is a 501(c)(3) non-profit organization.

## Canine Companions for Independence®

The most advanced technology capable of transforming the lives of people with disabilities has a cold nose and a warm heart.

The assistance dogs we breed, raise and train aren't just the ears, hands and legs of their human partners. They're also their goodwill

ambassadors, and often, best friends as well. They open up new opportunities and new possibilities. And spread incredible joy. We unite people with dogs in a powerful program that leads to greater independence and self-esteem.

*This is the magic of Canine Companions for Independence.*

*Exceptional Dogs for Exceptional People®*

cci.org

# We train **4** types of assistance dogs

**Service Dogs** assist adults with physical disabilities by performing daily tasks

*"Caspin helps me help myself. He can retrieve my phone and other dropped items, pull my wheelchair and open doors for me."*

—Wallis Brozman and Service Dog Caspin

**Hearing Dogs** alert the deaf and hard of hearing to important sounds

*"Since Cali alerts me to the sounds I can't hear, I don't burn the food anymore and the tea kettle doesn't boil off its water."*

—Don Detrick and Hearing Dog Cali

**Facility Dogs** work with a professional in a visitation, education or healthcare setting

*"Silvija is a huge motivational force in treatment."*

—Amy Johnson and Facility Dog Silvija

**Skilled Companions** enhance independence for children and adults with physical, cognitive and developmental disabilities

*"Now kids don't look at the trach tube, but instead notice Cory and Melly as a pair."*

—Maurice, Cory's dad

# Life. Unleashed.

Canine Companions for Independence® is a non-profit organization that enhances the lives of people with disabilities by providing highly trained assistance dogs and ongoing support to ensure quality partnerships.

## Puppies

Canine Companions breeds Labrador retrievers, golden retrievers, and a cross of the two to be assistance dogs. Volunteer

breeder caretakers care for

Canine Companions breeder dogs and nurture newborn puppies for eight weeks until they are brought to Canine Companions. From ages eight weeks to 18 months volunteer puppy raisers care for, provide basic obedience training and socialize our Canine Companions puppies.

## Training

Professional Canine Companions instructors teach the dog to master over 40 commands for six to nine months, before

the dog can go through Team

Training and be matched with an adult or child who has a disability, or a professional assisting people with disabilities. Team Training culminates in a joyful graduation ceremony for graduates beginning a new journey and for puppy raisers witnessing their puppies' achievements.

*"If you want to help people—and you believe dogs are the way to do it—you need to be involved with Canine Companions."*

— Terry McGraw  
Chairman and CEO  
The McGraw-Hill Companies
