

A tale of a blessed Guardian through MMHF in collaboration with Global Giving initiative to support Vulnerable and orphaned youth.

Figure 1 Philemon & mother after receiving the Scholarship.

Single Parent: I am very delighted to have brought my child to Mayanja Memorial Medical Training Institute. I cannot express my joy, happiness and relief that is in my heart for the opportunity availed my son, coupled with the assurance of completing the nursing course. Thank you donors, Global Giving, and the Scholarship committee for being good to the needy vulnerable youth. It had become increasingly difficult to raise money to cater for my children, maintain our home, pay medical bills, and fees for their education,. . After 3years training as a nurse, Philemon will lend a hand in settling some bills at home, raising tuition for her brothers and cater for our medical ailments within her area of training.

Student Philemon: I am relieved of the psychological stress of seeking institution fees, and can attend tutoring and practicum full time without any worry – ensuring that I will excel academically. My mother can now cater for my brothers and sister without worrying over me dropping out along the way. May God bless the partners, donors, and all well wishers who are saving humanity.
