

# Soap Making

Maman Katungu Kyarambi is a soap maker, working with her husband from their home in the DRC.

They started their soap making business in March of 2010 with her first loan of \$50 from PMI.

They then produced 2 boxes of soap per day to sell in their community.

Savon Mileto (Mileto Soap) is what they named their product. In May 2010, two months later, they took a second loan for \$100. In September they took their third loan for \$200!

# Where is Maman Today?

Maman Katungu Kyarambi

In March of 2011 with an ever growing demand for their high quality soap, Maman and her husband have decided to increase production by taking a fourth loan of \$400 (Only 12 months after their first loan).

Today they plan to increase their production considerably by working on a business plan with the help of PMI loan officer.

Their goal is to barrow a loan of \$1,000 to buy a mixer to increase productivity as well as hire two employees!

Priscilla Soheranda, PMI Loan Officer

## Will You Support Someone Like Maman Katungu?

- Will you commit to a one time gift of \$50 or \$100?
- Will you commit to support ProMicroFinance International on a monthly basis?
