

AFRICAN DEVELOPMENT
INITIATIVE

The beginning of spring brings new things for ADI

Dear Friends and Supporters of ADI,

This month, ADI is competing in the **Global Giving Open Challenge**—a competition amongst non-profit organizations to raise \$4,000 by at least 50 unique donors. Details are inside! The undergraduate team has been hard at work spearheading our participation in this endeavor. We hope you will continue to support us as we work to raise funds for our projects in Ekumdipe and Agyementi.

Sincerely,
Alexandra Almore
President-Elect, African Development Initiative

"This many crops in the dry-season? No, this is something that has never been done before here in Ekumdipe. But now with the project we know it can happen."

-Charles Kwaku, Farmer in Ekumdipe

globalgiving

Support **ADI** as we compete in the **Global Giving Open Challenge**

The GlobalGiving Foundation is a registered 501(c)3 organization hoping to change the way people give by offering donors a transparent, high-impact giving experience. GlobalGiving enables donors to fund the underdog without taking an undue risk. The foundation has a rigorous and tested due diligence process that simultaneously endorses organization while building support and funds for the groups.

The Global Giving Campaign is a competition amongst non- profits to raise \$4,000 during the month of April by at least 50 unique donors. Reaching this goal will give The African Development Initiative a permanent slot on their website which is a pretty popular site for people interested in donating to causes they support. In addition, the organization that raises most money or has the most donors will get an additional monetary prize from Global Giving.

Helping this cause can be done with a click of a button.
