

FREQUENTLY ASKED QUESTIONS

Who is GlobalGiving?

GlobalGiving is a worldwide organization that distributes funds to local, non-profit organizations that are on-the-ground in the affected communities. GlobalGiving is leveraged by many companies to collect and distribute funds from their employees and from the organization.

How much of my donation will make it to the people affected?

GlobalGiving was chosen for their low administration rate – just 7%. Additionally, they charge 3% for the credit card processing fee. Therefore, 90% of your donation will reach the organizations and people who need assistance with basic needs, as well as housing, employment and medical care in the coming weeks and months.

For example, if you donate \$20, SeaWorld will match your donation, equaling a total donation of \$40. Of that donation, \$36 will be delivered to the impacted areas through small grants to on-the-ground, local non-profits.

Can I give to more than one fund?

Ambassadors have the opportunity to donate to one or all four disaster relief funds.

Is SeaWorld going to match all dollars donated?

SeaWorld is proud to join you in your support and has committed up to \$25,000 to match ambassadors' contributions to GlobalGiving through December 31, 2017.
