# Webale nnyo!

Dear Friends and Maama Africa Family,

As we finish our 5th year of operations we have so much to be grateful for. Because of you, and thousands of others who believe we can partner with to transform lives and communities, Maama Africa the Voice Uganda has impacted many lives.

In the past years we have managed to educate over 58 children, empowered over 450 women with skills Empowerment and economical development to 8 communities. We have also involved in feeding, rehabilitated and resettled street children to their respective families however, we are still taking care of more street children at Mama Home that are still under the rehabilitation program and those who have no parents completely .

This year the Board of Directors have completed a strategic plan for the coming five years which includes Building a place that children with no Parents and have been raise by Maama Africa a place they will always call

home, An Empowerment centre that will have a vocation training primary School, Empowering life-time skills to more women, children & youth, construct the orphanage school construction, Engaging ourselves more in programs that play a big role in the breaking the cycle of poverty in many poor household families through healthy workshops and many more.

Our mission is to Promote education that every child deserves a chance and right to education, work directly with women, communities living in extreme poverty and engages and educates thousands of people lining in slums and poor communities in Kampala, wakiso, luwero Districts how they can educate their children and end poverty. As part of this work we were thrilled that July 2013 when we sent off 21 women with skills, we hit our target of empowering 30 women per a quarter! Through this women have been empowered,59 children have access to school, volunteers have joined hands with Maama Africa from USA and locally since we started, helping people understand extreme poverty and smart effective ways to fight it.

Thank you for being a part of our Maama Circle! Whether you hosted me at your church, College, home bought African jewelries, made a donation, visited us in Uganda, “liked” us on Face book, volunteered for us, told someone about us, held our brochures, you gave yourself to help sponsor a child to have education, or you prayed for our maama Africa. It is your participation that makes Maama Africa the Voice Uganda dynamic, successful and effective. Thank you so much, or as our Swahili friends would say, “Asante Sana!” and a Uganda will say webale Nyo!

The founder Maama Africa Winnie Kyewalabye  
And the entire wonderful team of Maama Africa.

# SURPRISED BY GOD'S PEOPLE!

## Letter from the Founder Winnie Kyewalabye

**T**he eye cannot say to the hand, I have no need of you,  
“nor again the head to the feet, I have no need of you.”  
(1 corinthians 12:21)

The work of Maama Africa the voice Uganda is rooted in partnership does not require us all to be alike. Indeed, real disparities often exist between Maama Africa the voice Uganda and those with whom we serve .our partners frequently have crucial experience, skills or resources that we lack, while we bring needed elements that they are missing .we do not try to be identical .instead, recognizing our need for one another and our God given equality, we allow our differences to enrich the relationships of mutual respect, dialogue and common purpose that we build together. In so doing ,we often surprise one another.

In Uganda, its not uncommon to hear stories about poverty, diseases, war, and corruption.

Unfortunately, even trillions and trillions of dollars that are poured into Uganda its hard to find lasting change.

The fact is that until Ugandans especially Women and Children are empowered and enabled to create lasting change, our story and future will remain unchanged.

Empower a Woman to raise a Child through creating sustainable access in slums and rural areas in Uganda.

***My love to you all. Thank you for being my friends***

Winnie Kyewalabye

A handwritten signature in black ink, appearing to read 'Winnie Kyewalabye'.

# Working together to give women & Children a chance in life.

Every year since 1990 the number of many women still face violence due to many other reasons among which economical vulnerability is leading ,children still miss school even if we have UPE (Uganda primary education for all due to preventable causes around the world. This is amazing and encouraging, and shows what happens when we commit to Empowering women to Support their children through School in both Urban Slums and in the Rural Areas of Uganda.

It shows that when Families, communities, supporters, ambassadors, leaders, government ,multilateral organizations and the UN work together, real progress is made. Since 2009, Maama Africa the Voice Uganda has been working with communities, churches, and government partners in 2013 through community & women Empowerment programs to eliminate the preventable measures that lead to Women Violence and children not going to school.

But heart breakingly, every year nearly o a over a million children still miss School, others drop out of School and turn to be mothers at a very teenage age, women still face Violence due to the economical vulnerability and many more most basic feminine domestic causes. The face all this in places we have overlooked or can't reach. I don't believe they face all this that we don't care; I believe they do because we aren't doing enough.

What we know, as this report shows, is focusing on Families and communities are the key to making it stop. I met Ms Rehema the women vice chairperson in kiteredde bombo on our community day named RESILLIANCE” organized by mama Africa the voice Uganda and was part of the delegation of women and children who met their counselor to discuss improved access to Empowerment programs for women and children across her community and I asked her to help us introduce this report here is what she said:

Women empowerment programs are basic services that all people in the country and village should receive. The state of women on our village is very poor. It is a problem to have to go and when here are organized meetings about empower women as a result few women have access to such opportunities and Men feel better off when women know less because its easy keeping them as humble wives but contribute less to their community well being and as a result of these women and their children , Mothers prefer leaving homes go look for greener pastures and leave the children behind and in the end few children persist many leave home and go streets drop out of School as well.

Because of ignorance many women believe that if their children drop out of school especially girls child, getting Married id the other Solution to life forgetting that un educated, un-empowered woman economically will always face more challenges in life and will never be happy Mothers to raise their children.

I want the government to give more priority to Women, girl child with Skills Empowerment in both urban slums and Rural Areas .they should allocate higher budgets fi this too. The government has to open more Empowerment centre in slums and rural areas.

Only then we can reduce the number of Violated women, teenage marriage, prostitution in slum communities .i think also government should make a law and pass it in the parliament to reduce the number of school drop outs and tanagers mother who have no skill at all.

Also to have a slight change in the school curriculum ti have vocational skills as part of their curriculum that even if a child drops out of school at a teenage age she will always be able to sustain herself and support her husband economically. Let us give a chance to Empowerment.

## Becoming a hand of the shepherd

This offers you the opportunity to become involved with Maama Africa

Could I really study overseas?  
“I think Africa's where I should be.”  
“is international development for me?”

You won't know unless you  
GET YOUR FEET WET.

Get Involved (We need a roof Over 63 heads)

God is stirring His people around the world to rediscover His mandate to “look after orphans in their afflictions” James 1:27. By partnering with Maama Africa the Voice Uganda, you are joining the movement.

You can connect with this ministry in several ways;

- Build a home & school of Empowerment through our monthly Global given programme.
- Become our voice in your area
- Volunteer with Us today
- TAKE the choir home with you
- Mama Africa children's choir merchandise
- Support the ministry prayerfully & financially.

God has called all of us to care for the orphans and empower women

Yes I want to Support the work of the choir

For a tax receipt please ensure that you prove your Emailing address.

Donations are tax deductible as allowed by law. Tax receipts for donations under \$ will be issued by request only.

(Maama Africa raise a roof)

# Thank - you Donor Recognition

Maama Africa the Voice Uganda is deeply grateful to the anonymous donors and many individuals and organizations that have supported us during the last 6 months and the previous years through cash gifts, sponsorships, gifts-in-kind and significant time and energy.

We greatly appreciate those that have contributed and dedicate allot of you till were we are today

1. Mr. Tom Mauque
2. Ms Angela McNally
3. Ms Meadie Burton
4. Ms Sharon and Husband
5. Ms Suzan Flip
6. Ms Tanya
7. Pst. Monte & Ms Thea Together with Syracuse Church
8. Ms Nancy
9. And many more other Pioneers of Maama Africa

We greatly appreciate those that have contributed from \$1000 and above

- Canadian Evangelism
- Ms Tanya, Randy and Family
- Ms Sharon
- Ms Pat

Our Heartfelt thanks to those who have made significant cash donations between \$10 and above to maama:

Maama has made every effort to accurately acknowledge our benefactors. If we have made a mistake, please accept our deepest apologies and contact Winnie: [admin.mamaafrica@gmail.com](mailto:admin.mamaafrica@gmail.com) so that we can correct the error in future publications.

Other Ways You Can Help

- Like us on Face book, and then share the link to this campaign!
- Invite me to speak: I'd love to share more about Maama Africa the Voice Uganda these issues with your group of friends, sports team, high scholars, church, or college campus.
- Be our advocate in your Area.
- Get the word out! This problem and its solutions are counter-intuitive to what mainstream media is telling us.
- Help your friends and family understand the need to get children out of orphanages those who have and back in their families.
- Provide a place to call home for a complete Orphan
- Sponsor a child for \$25 a months for feeding and education.
- Come volunteer with us today!

## PROJECTS

- Sponsor A child
- Raise A roof
- Sustainable Opportunities to poor households
- Skills Empowerment - women & youth
- Go back Home

*Lot you can do with your money but thank you for choosing Maama Africa*

# MILLENNIUM DEVELOPMENT GOALS

The three MDG goals that we are working towards 2, 3 & 7

## Definition:

In September 2000, leaders from 189 nations agreed on a vision for the future: a world with less poverty, hunger and disease, greater survival prospects for mothers and their infants, better educated children, equal opportunities for women, and a healthier environment; a world in which developed and developing countries worked in partnership for the betterment of all.

This vision took the shape of eight Millennium Development Goals, which provide a framework for development planning for countries around the world, among them is Uganda and time-bound targets by which progress can be measured.

The eight MDGs range from halving extreme poverty to halting the spread of HIV/AIDS and providing universal primary education, all by the target date of 2015. The individual Goals are to:

1. Eradicate extreme poverty and hunger
2. Achieve universal primary education
3. Promote gender equality and empower women
4. Reduce child mortality
5. Improve maternal health
6. Combat HIV/AIDS, malaria and other diseases
7. Ensure environmental sustainability
8. Develop a global partnership for development.

4

*Government alone cannot but together we can achieve these goals*

# EMPOWERMENT SKILLS

# Your time brings hope

## Goal 3:

Promote gender equality & the empowerment of women

Ensure that women and girls are able to reach their God-given potential.

During several of volunteers visiting Maama Africa, they have identified the need and they have helped to solve the problem where they can. A group of over 63 children at Vocational bible school in New York, organized a fund-raising at their church and bought a stove for Maama Africa. This has made cooking more easier than before.

Thank you children we pray for you, more knowledge, wisdom and understanding GBU

## IT TAKES A WHOLE VILLAGE

### VOLUNTEER WITH THE CHOIR

You can organize a tour

An experience unlike any other! you can join the

Mama Africa the voice Uganda choir's dream is to travel throughout The USA, Canada. or even parts of Europe as one team

Of care givers and tour staff. Special roles and call, we need tour organizers, sound tech, music supervisor, teacher and Bus driver. Travel to Africa

Their music is headed to Uganda. Kenya, South Africa to facilitate day camps for under Privileged children in Uganda.

**Mama Africa**  
"Our Child & Community Empowerment in Uganda"

## ADULT Literacy

With your donation, i can now read and write my name. thank you

## WHAT'S IT REALLY LIKE LIVING AND LEARNING IN AFRICA?

The facts:

- More than 40 percent of women in Africa do not have access to basic education; some 584 million women are illiterate.
- More than 80 percent of farmers in Africa are women.
- Women earn only 10 percent of the world's income, yet they work two out of three of all labor hours worldwide.
- Some 2 million children, mostly girls, are enslaved in the global sex trade.

# Support

## Grants

Maama Africa knows that the most effective approach to transform Lives and communities is a holistic one, and we recognize that we can't do it alone. In order to build more momentum and reach more people, Maama Africa has to increase her focus and size of funding. We would like to partner with effective and generous organizations, churches, companies, and individuals who desire to make a difference in the lives of the poor communities.

Examples of our grants we hope to make next year include:

- Construct a children's Home
- Funding to create sustainable opportunities for poor household families in Kiteredde, Mamba and Luwero villages by giving pigs, cows, chicken, goats and sheep to 500 homes.
- Reconciling and resettling more street children back to their families.
- Training more leaders in the Bush Areas of Mamba, Saali and more.

# The Heart

## MAAMA AFRICA THE VOICE UGANDA.

### Staff

Maama Africa the Voice Uganda. has an amazing Volunteer staff. Their hard work, dedication, and passion for transforming lives and communities, is the heart of our ministry. It is a great honor to work with such great people and to them we say Asante Sana.

### Volunteers and Community Partners

Maama Africa the Voice Uganda is fortunate to have some network of volunteers. Some women and men from America and Uganda help us fulfill our mission to transform Lives and communities. We also have some community support that always comes to our aid wherever we need them.

# ECONOMIC SUSTAINABILITY

A girl born today in a poor community joins the largest group of people to be denied basic needs and human rights: women. In many cultures, a girl is devalued from birth. She may be given less food, denied urgent medical care, and assigned exhausting chores. As an adult, poverty makes her more vulnerable to threats like domestic violence, childbirth complications, and HIV and AIDS – and often prevents her from breaking the cycle of exploitation for her daughters. Recognizing women as critical partners in development, through partnerships we actively and sensitively work to equip and encourage women around our local communities in the slum of Kosovo and the rural areas as well...

### How Maama Africa the voice Uganda empower women and girls.

**Community education:** Our culturally sensitive Volunteers promotes recognition of the inherent value of girls and trains women to advocate for their rights and be leaders in their communities.

**Health care:** Along with basic health care, maama Africa together with health centre in our operating areas offers prenatal, nutrition, and hygiene classes.

**Advocacy:** Maama Africa the voice Uganda advocates for girls' education to ensure they have the same opportunity as boys to attend school and develop their potential. Maama Africa also seeks to reduce the vulnerability of girls and women to HIV through advocacy at the local, national, and international level.

**Education and training:** Maama Africa the voice Uganda provides education, training, and literacy classes specifically for older women who are often overlooked. In Slum homes, Rural areas where there is a great need for psychosocial care, these classes help women work through past trauma of violence as an outcome of economical reasons. Women benefit from the healing of old wounds and the chance to move beyond these experiences to a future with more opportunity.

**Micro lending:** Maama Africa the Voice Uganda provides small loans to the entrepreneurial poor. Most maama Africa's loan recipients are women, who consistently use their extra income to increase the well-being of their children. Women in these households have increased opportunity and decision-making power, which is a benefit to the whole family. Families who receive small loans report better family health, an increase in their business earnings, and the ability to spend more on food, medicine, and education.

**Goal 2**

*Achieve universal primary education*

**Goal 3**

*Promote gender equality and empower women*

**Goal 7**

*Keeping my community clean begins with me*

*Ensure environmental sustainability*

# Kampala Capital City Authority Funds Empowerment

The government alone cannot achieve all these goals alone and among the many other organizations that have and still work towards these goals, maama Africa the voice Uganda focused so much on goal 2 and 3 mostly.

In 2009 Maama Africa embarked on Empowering women and child education, raising talents as well as community development and we believe by 2015 as the estimated time to achieve these goals as the country we will have achieved at least a percentage .

In 2010 we managed to get friends locally like Ms Margaret Katono who gave us 7 sewing machines and internationally from Pen state university who gave \$250 towards women economical empowerment. 8 groups of women each group got animals that included Piglets, goats and heads of sheep today all these groups are economically empowered.

We as Mama Africa Empowerment centre graduated 45 women from the slum community of salaama Kulekaana with adult education and economical skills like soap making, tailoring, home, economics and today they earn and educate their children as you success stories here.

Early this year in April 2013 Maama Africa schemed funding from Kampala city council Authority of 5,000,000/= equivalent to \$2000 and this was purposely for the Empowerment centre were we have trained and sent off so far 21 women from the slum community with adult literacy programs like Hair dressing, Tailoring and soap Making . This first group

*This occasion was officiated on the 18th day of July 2013 at Salaama Worship Centre Parking Yard by the RDC Makindye Division. Mr Hussein Kyeyune, Deputy Mayor Mrs. Peruth Munaaba, Councillor Muddu Awulira Dan Ssekamate, Councilor Baker Sserwamba, Councilor Nakayima, Mr. James Waiko (Sanitation Officer), Pst. Chris & Agnes Lubega, Miss Betty Ssejje and a team of 11 friends from United States*

Thank you KCCA

*These Women & girls are now supporting their families, communities & will contribute to the economy of Uganda atlarge*

# Together we can make our African dream come True.

We are here for Africa, for a dream we all share.

Many hands have pulled this Choir together and want to Thank all of them

When you know that some one believes in you, great things can happen; A small amount of encouragement and support can make a huge difference

Over the years music for life has witnessed incredible changes in the children Once self-conscious and shy, the children blossom becoming leaders among their peers *Madinah* has just finished secondary school in Life has been not easy for she grew up with just her *foster grand mother* to raise her in *Mityana*. But inspite of the challenges, *Madinah* is a natural leader and a mentor to her Peers.

When giving testimonies many other students will refer to something that Madinah said Or did that helped them.

## Madinah

*By His grace, Hope is advancing, Thanks for making a difference in my life*

## Maama Africa the voice Uganda presents

They were children in Maama Africa; today they are living out their dreams.

Maama Africa the voice Uganda has educated over Fifty nine (59) children during its 3year history

Proceeds from Maama Africa the voice Uganda work help provide education, care and emergency relief for children in Uganda.

Maama Africa the voice Uganda raises awareness of the plight of Uganda's orphaned and abandoned, but also highlights and potential of each African child. they are a voice for the millions of deserving children in Africa.

We are thank ful to have had the pleasure of performing as members of Maama Africa the voice Uganda

Being a part of Maama Africa the voice Uganda for life over the years has help We remain physically strong, mentally awake, moral, Upright and has healed our souls. We believe that every Single minute spent doing the right thing can lead to a Great impact in one's life and inspires a lost soul.

To Change the world it begins with a single step. When you help a child it produces a ripple effect Your support today has an influence on both The Africa of today and Africa of tomorrow.

19

## Maama Hope & Home

### Our Hope

Maama Hope creates sustainable opportunities for rural communities in Uganda to lift their households out of extreme poverty through farming. Small-scale piggery, goats, Zero grazing cows and poultry farms are making a difference in the lives in Kiteredde where the project was first demonstrated. Maama hope has so far benefitted over 110 families in the rural areas of Uganda. With incomes from Piggery, goat and poultry sales families have been able to improve their well-being and able to send their children to school; have enough food, access medical treatments and build their homes/houses. The goal of maama Hope is to assist every household in the community in the journey toward financial self-sustainability. We designed a program whereby recipient families do not to sale mother animals (pig, goat, and cows) or chicken received from the project not until they give birth to off-springs.

Maama Hope identifies poor households through partnership with local authorities who recommend them to the project as genuine citizens who need our help. Those under recruitment are taken for 1-2 months training on how to raise pigs, goats, cows and birds. This is done to avoid disappointment of loss of the animals donated to them.

In rural areas, our focus is on helping people with sustainable investments in their farms to create long term income. Key strategies include: providing better and improved breeds, agricultural education and connections to markets.

A charitable contribution will provide female milk cow, pig, goat, sheep, and egg-laying chickens to a poor household and build a future in one of the most poverty stricken areas of Ugandan communities, as each donated animal or birds brings hope for economic sustainability to a particular family. This Piggery Project is targeting to serve 10,000 families during its project life cycle; that is donating 200 milk cows, 2000 pigs, 1000 goats and sheep. Each animal helps to keep a needy family from hunger and abject poverty.

### Our Home

Uganda has the world's 2nd youngest population and 48.9% of her population is under the age of 15 (2010 world data sheet from the Population Reference Bureau.) implying that the future of this nation lies into their hands.

The youth have many challenges ranging from cultural, psychological, social, economic and political which have routinely affected their lives. And these challenges need a mechanism that will help them have someone who can give Love, care, guidance, encouragement and support. Without such a mechanism, the challenges will powerfully exist and their effects will be of great havoc to the youth in the community and the entire nation.

In Africa, girls-school enrollment is among the lowest in the world. With limited funding and shortage of classrooms and materials, educational opportunities are few and far between. Globally, 70% of the world's 130 million out-of-school youth are girls.

For this reason, Mama Home was indepted purposely to give both spiritual & physical support in terms of accommodation, education and food, medical and moral support to young girls who have been sexually abused, molested, cursed away by families, and dropped-out of school due to tuition. It has come to our notice that some of them are HIV/AIDS positive, drug addicts, prostitutes/sex-workers and homeless. Mama Home becomes a home for restoration and rehabilitation through talent development and vocational skills empowerment like Tailoring, Kitting, Metal Fabrication, art & crafts, Hair dressing, etc. whereas others children have been taken back to schools and colleges.

And our children go through our 5 step program.

- Rescue
- Rehabilitate
- Reconcile
- Empower
- Resettle

8

# OUR GOALS

Maama Africa the Voice Uganda works alongside with individual Volunteers, friends and Syracuse church and worldwide to raise awareness and support for street children. Our long term aims are reflected in our 5 step program and E - to rescue, rehabilitate, Empower, reconcile and resettle street children, abandoned babies and high-risk families in an attempt to identify and alleviate the root causes of children on the street.

We have 3 who have graduated in college, 27 in secondary schools, 30 in primary schools and 6 are not yet. The home is supporting 63, 4 are resettled, in 23 at home, 23 live at the home, and 27 stay within the community with foster parents.

## Our 5 step Child Programme

Rescue, rehabilitate, reconcile, empower and resettle.

## Our immediate need and goal

Maama Africa enables orphans and vulnerable children access to free education with an aim to better their future. The home and office project are on 1 is 1 hour from the mail Entebbe road Kampala. Over 63 kids benefit from every opportunity that comes by our way. 19 children now fully benefit from and are provided with educational support, food, scholastic materials, and uniforms to enable them a better learning environment. 4 children have been resettled and 40 children stay with distant relatives and in different communities.

Maama Africa seeks to give education to vulnerable children aged 4-15 to excel in their primary education. Maama Africa tries 60% of which are girls. We 3 qualified teacher at the empowerment centre, two care takers and one home teacher.

## Immediate Need

**MAAMA AFRICA RAISES A ROOF CAMPAIGN** ( we came up with this campaign on 11/3/2012) so far we have \$5000 and we need \$7000 to purchase land we will soon get there before the year ends we trust God he has a plan! )

School enrollment in Africa is among the lowest in the world. With limited funds from poor governments and coupled with corruption, there is little success to improve the education sector in government administered schools. Globally, 70% of the world's 130 million out-of-school are girls. We are committed to give education to these children and a place they will call home as long as we have the funds to sustain them. And also enroll more children next 2 years to go through our 5 step program.

# Voices of hope release souls and sets them free

In poverty stricken villages and slums, Dreams most often do not survive the Daily hard ships that come with living in Extreme poverty.

Members of Maama Africa the voice Uganda and children are exposed to new Ideas through the people they Meet. Chaperones, host families Volunteers and many others introduce, Experiences that open up a whole different world of dreams.

Abdul says when he grows up he would like to be a Volunteer and driver to support more other children as well as Mama Africa. The word LOVE would have been beyond Abdul's vocabulary but now, not only Is becoming a possibility!

Like most children these dreams may change. But no matter what these dreams eventually become, each child will receive the support and Education to make it happen.

As a friend of Maama Africa the voice Uganda, Abdul will have a chance to achieve his dreams.

Maama Africa the voice Uganda will ensure their education until they have completed post- secondary school.

They will also receive love and Encouragement from their sponsors.

As part of the Maama Africa family, Thousands of other children who are not part of the family will have a chance for quality education, and will have goals, dreams and the chance to change Uganda and the world.

And after all, no matter where you live in the world, there can never be too many nurses, cardiologists Veterinarians, pilots or teachers!

Abdul the Volunteer & Driver

Abdul & the Choir

# Caring for God's kids is more than a statement is a commandment Duet: 24:18

## Become a sponsor

Sponsor a child from Maama Africa the voice Uganda or one of many other children attending educational programs in Uganda.

### When I grow up

Helping Uganda's most vulnerable children today

*Shafick* 11 years old is from *Mpigi - Uganda*, waiting for a sponsor, He believes when he grows up, he wants to be a *Mechanic Engineer*.

### What did u want to be when u grew up?

For some children the dream constantly changes and what they become as adults is far different than their childhood dreams. For others a passion ignited at a young age lasts through adulthood,

17

Psalm 68:5-6 God is the father to the Fatherless & that He places the lonely in families

## Immediate Need

It is surprising that even after much help of Government education support, Other N.G.O's that may have supported education there are still many children in this community who need to get proper education. We are only limited with space a place to rest their heads and a transitional home to go through but we can't do it due to the little space we have and temporary.

However, we have made a campaign on global giving called "RAISE A ROOF OVER 63 OPRHANED CHILDREN" and now we have so far raised \$5000 and it's still held in the account until we get the \$7000 to have at least 3 acres for Maama Home, were we will have a village home, farm yard for food security, Poetry project for sustainability, we thought we would get more land out of our budgeted amount but land has increased prices and they are very high.

### Future Plan:

#### Vocation training centre

Our future plan is focusing so much on sustainability and this will be through many different projects Like the Training centres that we believe to empower more children, women and youth with self sustaining skills and Knowledge.

### Our Offer To You

Our ministry has come up with a cooperate idea to give a naming right to any donor who offers to build a Dormitory worth \$10,000.

There is a deep desire for these children that people from different nations share in their sorrow, hope and finally smile with them. This could be done through provision of an affordable education.

 When I grow up  
 Volunteer with the choir

## Our Finances

The essence of Maama Africa the Voice is to transform lives and communities through educating thousands of the less privileged children in Uganda, imparting self-sustainable skills in women, expressing God's love in the impoverished Uganda. We raise our funds through generous friends locally and internationally. At the international level our funds is handled by faithful partners, the Global giving organization who deposit the funds into our local organization account at the end of every month if we happen to receive any.

During the six months, Maama Africa has encountered growth from children missing food to have at least breakfast and one meal a day, missing school to going to school, women from being violated because of the economical vulnerability to sustainable skills and many ears now. Maama Africa has also engaged in poverty alleviation in families, engaged in several outreach missions inside and outside Uganda, conducted seminars, conferences and workshops, involved in the feeding and medical campaigns and reached more people than any previous year.

This year we have a goal of having Land for the entire Projects though Maama Africa Raise a roof campaign we have raised so far \$5000 and we need \$7000 to go. This year we will get there together we will join us on this today we shall achieve this.

# Getting Involved

Maama Africa the Voice Uganda is a nonprofit organization whose operating budget is derived from both local and international communities. We devote the majority of our resources to holistic program development in Uganda to transform lives and communities by intervening into the physical and spiritual challenges of people.

We also know that we cannot make the impacts on extreme poverty; we would like to partner with grant giving organizations so that we may access more funding. We would like to solicit grants for constructing the children's Home and a vocation school.

We also believe in the importance of international effort to end poverty, illiteracy, moral decadence and invest in the education and engagement of people around the world to help to powerfully eradicate the human challenges.

Our general and administrative expenditures present the funds spent to manage Maama Africa programs like Resettlement process, Empowerment centre and many more and operations in all our projects. We are very grateful for the few not many volunteers who contribute so much of their time and effort to our programs and operations.

For all money received this last 6 months from Donations, gifts-in-kind and the sales of crafts and Winnie's Income, this is how those funds were spent:

76.6% was disbursed into the programs of the Maama Home:  
 \*Funds were also used for tuition to our children at Mama Home, scholastics Medical and feeding.  
 \*Resettlement of 2 little ones and 2 adults were also facilitated using the same funds.

2.3% was disbursed for fundraising as indicated below:  
 \*Designing & printing Ministry flyers, reports and brochures for particular projects.  
 \*Purchase of stamps for letters posted to our donors and partners.

21.3% was disbursed to maintain the administration as below:  
 \*Funds were availed as salary 4 volunteer staff and allowances.  
 \*Also other funds were used to meet rent, transportation, and utility bills.
