Dear
GLOBAL GIVING DONORS

I hope you are fine and doing well with your work. Likewise to me I am fine and doing well with my studies.

The main aim of writing this letter is to say thank you because you paid for me the school fees for almost 3 years. Also me, I am trying to study hard and add more effort in my studies.

Surely the school which I am studying is good and it provides the best education more than the school that I was before - I am studying hard in order to be the doctor and I help people with problems. Physically I am well & don't have any problem.

Lastly, may God be with every where you go. Amen.

From EVELINA DENIS

Lots
of
Love.
