#### **Brief description about course:**

Electrician course includes all the aspects of practical and theory knowledge about wiring and safety aspects. Teach students about different lines of electric connections, different tools used in this work, different types of wiring system and earthing system is also covered.

For practical implementation students do visit live site to test their knowledge. Guest lecture are also organized for them to provide knowledge about insurance, life skills, safety, finance and approach towards work.

#### **Case Study:**

Kishankumar says “I have learned a lot from electrician course, new equipment usage, how to take safety steps for the work. I was earning ₹4,000 now after this course I am now earning get ₹6,000.” Also through life skills, savings and insurance knowledge now I can properly organize my earnings.
