A woman with dark hair, wearing a pink t-shirt with Disney's Frozen characters, is measuring the arm of a young boy. She is holding a pencil against his arm. The boy is wearing a light blue t-shirt with a motorcycle graphic and the word 'MOTORCYCLE' printed on it. They are in a room with a colorful play mat on the floor and a white tiled wall in the background.

The image shows a clinical procedure room. In the center is a patient bed covered with a blue drape. To the left of the bed is a large medical machine with a screen, identified as a Fractional CO2 laser. Behind the laser are several medical monitors on stands. To the right of the bed is a cart with red drawers and a blue bucket. Further right is another medical machine with a screen and a yellow bin. The room has white tiled walls, a large window, and a surgical light fixture hanging from the ceiling.

COANIQUEM HACIA LOS 50 AÑOS

PLAN DE DESARROLLO INSTITUCIONAL 2023-2027

Our purposes

“

To reduce the number of
children and adolescents
who suffer from burns.”

“

We believe no child's future should be negatively impacted by a burn injury. We are dedicated to ensuring that both the child and their family receive the necessary medical, social, and rehabilitation support, so they never face this journey alone.”
