

Every child deserves the chance to play.

Mission: To provide healthy lifestyle options in developing countries by donating new and used sports equipment to underprivileged, yet deserving children in orphanages and schools.

GloBall Giving is a suburban Milwaukee-based charity that collects new and gently used sporting equipment from retailers and the garages, storage sheds, basements and attics of families like yours. We then work with our partners to distribute these goods to children in orphanages and schools in third world countries.

The World Health Organization has recently estimated that out of the 42 million obese children in the world, 35 million live in developing countries. Without your help, these children; who often have no other option for enjoyment, are stripped from the happiness that a simple sport can bring to their impoverished lives.

Here is a small list of what GloBall Giving could use to send to our affiliate partners:

- Uniforms, socks, shorts, cleats
- Soccer balls (deflated)
- Small ball pumps
- Baseball or basketball equipment

We thank you for your help! The pure joy these gifts bring to the children is immeasurable and your help will change the lives of these deserving children.
