

Micro-Project: 2202 - Rumah Kito Orphanage in Banda Aceh

Summary

100 beneficiaries

\$595,781.00

Description

Description

House for children orphans as tsunami victims is very important because most of them were still stayed in refuge barrack or house of inhabitants where they are considered as their relatives due to the same destiny. Another problem is many of them just expect to get aids from either of communities or funding agencies. Because of this reason, there is an idea to build a house for children orphans and we called "Rumah Kito".

The steps what we do:

1. Build the house (including land preparation, certificate and notaries)
2. Furnishing for children, house and office
3. Life needed, food and beverage for children and management for 1 year (setting up)
4. School expenses and equipment for 100 children in 1 year (including transportation cost)
5. House maintenance for 1 year

Beneficiaries

100 beneficiaries

Community

Bakoy Village Community Group

BAKOY, INGIN JAYA, ACEH BESAR, Aceh, Indonesia
