- 2) Summer 2013 Project
- 3) Project Timeline
- 4) Job Description
- 5) Benefits
- 6) Budget
- 7) Report of Summer 11 and 12

Overview of WEBDEV FOUNDATION

WEBDEV Foundation is a humanitarian, apolitical, non-governmental and non-profit association whose main activities are based on the social education in ICT (information technology and communication), cooperation and reciprocal solidarity. WEBDEV Foundation is composed by young people who share the passion to build an efficient society and sustainable environment.

WEBDEV Foundation undertakes alongside the Cameroonian government and other national and international organizations to contribute in the areas of education, health, environment and culture. projects and programs aim to fight against underdevelopment.

Overview of WEBDEV FOUNDATION

We are also interested about child care, human rights, women's empowerment as well as providing assistance to discriminated and disadvantaged community groups such as people with disabilities, street children and orphans. Our projects welcome international volunteers from all over the world.

Volunteers can choose to spend short-term or long-term stays in Cameroon working on important local projects.

The Cameroonians benefit from the vast range of contributions made and likewise the volunteers gain invaluable understandings of a different culture and lifestyle. Moreover, working and living together with other young people from around the world provides an excellent opportunity for new friendships to be forged, insights about a fascinating country to be learnt, and skills and experience to be gained.

Summer 2013 Project

"summer 13" is a set of projects intended to empower people in rural areas in the fields of health, information technology, entrepreneurship and social responsibility:

HEALTH HOPE PROJECT: to educate rural populations about the dangers and consequences of HIV/AIDS and malaria. this will be done by peer educator training, communities sensitization (talk to talk, door to door), "**community sport football tournament**" and "**challenge b3 marathon**" across the villages receiving the project.

Summer 2013 Project

SOCIAL IT PROJECT: training people on the usage of computer in the areas of computer literacy, data entry operators, software such as windows xp, word, excel, powerpoint and publisher.

ENGLISH ACADEMY: English is the most spoken language in the world. it's becoming a real necessity to teach and educate people on the usage of this language. population of these villages will benefit each year as in 2011 during summer 7 weeks training on English language in 2 villages, Bangoua and Babouantou.

Summer 2013 Project

SOCIAL RESPONSIBILITY: is a new concept in Africa. for this project we want to stimulate people to often catch responsibilities to help other in their various communities. the renovation of a building in a primary school would be welcome for this project and put the community concerned in accordance with its realities and commitments.

Y4B (YOUTH FOR BUSINESS) PROJECT : this project component aims to give to youth rural residents accurate knowledge on entrepreneurship in accordance to the opportunities that are available around them. 10 workshops and training session on setting up projects, designing a business plan, project management and leadership.

Summer 2013 Project

GLOBAL VILLAGE: This will be an opportunity for all the participants from more than 10 Country to present their culture, opportunities of cooperation in their various countries. During more than 3 hours, each country represent must perform a presentation to raise awareness of participants.

ECO-TRIP: Is an eco-Tourism trip that aim to promote West and North-West Region of Cameroon. Theses trips will be done during weekend free times. Volunteers/Interns will have opportunities to visit others in their camp during weekends.

Summer 2013 Project

GOALS

DETAILS	NUMBERS
Peer educators trained	100
