

## **Proposal for Children School Environment Funds (CSEF) 2013**

*“It Takes a Whole Village to Raise a Child”*

**Title: Safe, Clean, and Healthy School Environments (SCHSE) Project  
Targeted Regions: Africa Sub-Sahara, and Others.**

### ***Project Description and Concept***

Today, more than 2.5 billion children are dying from infectious and chronic diseases in the world due their exposure to man-made and natural hazards in schools, and in their communities. The situation is desperate in countries, which have known barely political stability and economic growth. The diet economic situation, political unrest, and cultural practices and consideration in most African Sub-Saharan countries are worsening children school environment.

### ***Why Should You Donate to Us?***

Children School Environment Fund (CSEF) collection is set up to change lives, to break a suffering that starts from childhood and affects children adult life later on, and to enhance age-appropriate young girls and boys physical and psychological development. The purpose of this project is to give opportunity to more than 6 million children attending schools from head start to secondary schools. The project is targeting first schools in rural and urban areas in Africa Sub-Sahara, and may intervene in other parts of the world, if there is a mean. Join us to help children attending schools in shaky buildings and do not have any hygiene’s facilities and clean water.

### ***Financial Planning***

This project implementation may cost more than \$300,000 yearly. The financial plan has taken to account previous expenses data for this kind of projects and current relevant costs for their realizations. Expenses will serve to perform quality services and, yield adequate realizations that may last several years. We have a dedicate management team that will provide reliable accountability.

***The simple act of caring is heroic.***

***– Edward Albert***

<b>Clean, Safe and Healthy Environment Budget 2013-2014</b>			
<b>No</b>	<b>Item Description</b>	<b>Cost in Franc CFA</b>	<b>In US Dollars</b>
