BERLARI UNTUK BERBAGI
One of the main focus areas of Berlari untuk Berbagi’s program is the empowerment of teenagers who have dropped out of school. It is our hope that they can develop within themselves the ability to become financially independent. For this reason, we are interested in supporting The Learning Farm’s program. It aligns with our vision to support youth at risk so that they may obtain a second chance in life. I hope that, after completing the program, the alumni of The Learning Farm can return to their home areas and provide help in improving economic self-sufficiency.

(Sandiaga S. Uno – Founder of Berlari untuk Berbagi)
“I hope I can maintain my routine once I finish my learning at The Learning Farm. I like that I can wake up early and make my day productive here, unlike my previous life when I was nocturnal. After finishing my learning here I want to go back to Yabim, the institution I came from, and together with other students from Yabim we will cultivate the land there for organic farming. I want to be successful in my own way and make my foster parents proud of me”

M. Rahmat -19 yo
