Slice 2013

Volume: V

Year: 2013, November Issue: 10

From the Director's Desk...

"Govt must not spend on weddings", said Spoorthi from Davangere, the Vice President of the Karnataka State Network for Child Rights Clubs under the CREAM (Child Rights Education and Action Movement) project. She participated in the State Level Child Rights Meet (Children's Parliament), which was organized by Karnataka Child Rights Observatory, a consortium of non-governmental organizations on 22nd November 2013.

She said there is no need for the government to spend on *Shaadi Bhagya* scheme under which financial assistance is given to women from certain sections of the society; instead she wanted the money to be spent on educating girls. In this meet 65 children aged between 9 and 18 from 29 districts of Karnataka raised issues concerning children to the Minister for Primary and Secondary Education, Kimmane Ratnakar and to other members of Legislative Assembly. Their grievances consisted of a wide range of issues ranging from health, education, sanitation to poor infrastructure in schools. It is a new beginning. It is time for change. And through participating in forums like this, children, especially girls are able to articulate their rights and voice their concerns.

In this issue of SLICE we would like to update you the children's day celebrations in our various projects. Wish you all a meaningful celebration of Christmas and invite you to think of those children who may not have Christmas this year.

Merry Christmas and a Happy New Year 2014!

Children's Day Celebrations— *Celebrating childhood*

"Children need love, especially when they do not deserve it" said Harold Hulbert. True in every sense. Children's Day, celebrated on November 14th in India presents another occasion for Don Bosco centres to bring together those children whose childhood is deprived of necessities like fun, play, games, etc and recast the positivity in coming together with peers, rather than opting to confine oneself.
