

Trinidad Nolasco Romero
Teacher at Telsecundaria in
Las Choapas, Veracruz

"Greetings from Veracruz! On Monday, after arriving home, I took time to organize a different English lesson plan for the next three days, taking into consideration my notes from my IAPE classes. When I started with my activities, my students were astonished. At the beginning, they laughed, but later, they got used to do it. They helped each other to remember a phrase or a word, which reminded me of when I was in my IAPE classes with my colleagues; we were always trying to help one another with gestures. It was amazing!!! **At the end of my English class, I didn't realize my time was over. As everybody says, 'Time flies when we have fun.'**"

Martha G. Hernández
Veteran English Teacher

"I can only say "Thank You" for having me here. The IAPE Intensive English Program has been the best personal and professional experience in my life. I'll be practicing everything you have taught me. **After almost 20 years as an English teacher and having participated in all kinds of courses, I finally found the tools to be the teacher I've always wanted to be. Today I feel confident.** Now, I'm sure I'll be sharing knowledge and quality, which has always been my main concern about schools in my country. I also learned that to be "the best" is to be as humble as all the IAPE staff is."

Marcial Aguilar Ceron
English Teacher in State of Tlaxcala, Mexico

"Today was my first class using the Rassias Method®. My students were so shocked when I started my class and I was speaking only in English. At the beginning, they didn't know what to do, but little by little we were working so great. I just was so confident! Thanks so much! **I believe I am going to improve all my skills to teach and to speak and my students also are going to be comfortable speaking all the time in English class!**"
