Salem

social village

A **Global Citizen** is a person who....

... understands that the world is full of both beauty and brokenness or pain, and neither can be ignored.

... knows and seeks peace in their life; within themselves, with others and with the earth.

... lives in different way in the world, caring for its people, particularly the poor, and stewarding the planet.

At the **Social Village** we have....

English Courses* - equipping students to discover their role in the world through teaching high quality English courses, including Leadership classes.

Life Xperience - raising empathy and understanding of global need through simulations and experiential learning, including our new AIDS-Xperience installation.

Community Care - caring for the needy and helping those ignored by society, whilst teaching others to care about them too.

Shipping - distributing quality donated goods, which we continue to receive from Crossroads in Hong Kong, to organisations across Central Asia.

Cafe* - the social hub of the village, where compassionate community is built, assisted by delicious coffees and cakes.

**All profits from the English Courses and Café are used to fund other projects at the Social Village.*
