

I am Georgina a Seventeen year old girl Learning at Bar Union Secondary School in form two. I am the Second born in a family of five, my mother, my three Siblings and I. I try giving it my best while in School. My hobbies are Singing and playing Netball while at School.

I have been living with my grandmother who has been like a mother from nursery School. This has been due to financial instability. My mother is a peasant farmer who relies on our quarter acre piece of land to earn our living. This has never been sufficient to support our education. For this reason I have spent most of my life at my grandmother's place so as to reduce the burden for my mother.

When I was in class five at Bar Union Primary School, Umoja project came to my rescue when I was going through toughest times since my grandmother is aged and can only struggle to put food on the table once a day. Because of this I really thank God for bringing Umoja project my way at the perfect time when I almost lost hope in life. Umoja provided me with School Uniform, Lunch programme, blanket, Sanitary towels and the Psycho Social event which really had an impact in my life. We shared with my fellows and little by little my wounded heart was healing because I came to realize that I was not the only one who was going through that kind of life. I was really not alone in this.

I remember when I did my K.C.P.E. I was wondering my School fees would come from, thanks to Umoja

110 Project that held me again by my hands when I
Scored ~~three~~ three hundred and thirty three marks. I saw
myself as the luckiest person in this world because
if it were not for Umoja I could have had no
one else to look up to.

I really do appreciate Umoja project that has changed
not only my life but also lives of many other
vulnerable children. I really dreamt of being educated
but I kept on wondering if I could really
make it. The Lord is good that He brought Umoja
my way. I really do not have words to express
my gratitude but I feel most privileged to have
had this chance.

I have kept on praying to almighty God day by
day to let Umoja continue so that many other
kids out there may be helped from the situations
they are in. I am also promising to continue
working harder in school so as to make my
supporters proud of their effort in educating me.
Godwilling I may also get the chance to uplift
the vulnerable of which might be a trend in
our society for a better nation.
