

No want to thank the projects a lot and want to promise that as Single Girls we will work hard to ensure that the ~~my~~ foundation has more girls proceeding to higher limits. We also want to promise that we will show a good example to our younger siblings in the foundation by ensuring that we remain disciplined both in school and at home. We also want to work smart and ensure that after school, we may also give back to the foundation by encouraging our younger siblings and also trying to provide the resources necessary for the other students' welfare. All need is to improve our society for a better tomorrow.
