 - **104 students pursuing the course**
 - **41 students got placed**

Volunteer engagement

| # | Project / Activity | One time events | Comments |
|---|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| 1 | Digital Literacy project | 8 volunteers from Symantec trained 13 students and 2 teachers on internet application on day today life and also the disadvantages of internet. | Students and teachers gave very good feedback on the program and would like to have many more programs like this. |

Projects performance

| # | Project / Activity | What went well | Lessons learnt |
|---|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Digital Literacy Project | <p>1)Successfully Trained 542 students</p> <p>2) Placed 41 students. Highest salary offered is 15000.</p> <p>3) Successfully trained one blind student</p> <p>4) Project management data (student profile, attendance, assignment etc) all properly captured in google drive.</p> | <p>1)To attract students lab needs to be set up in a good locality</p> <p>2)Student enrolment depends up on the quality of the teacher</p> |

Testimonials

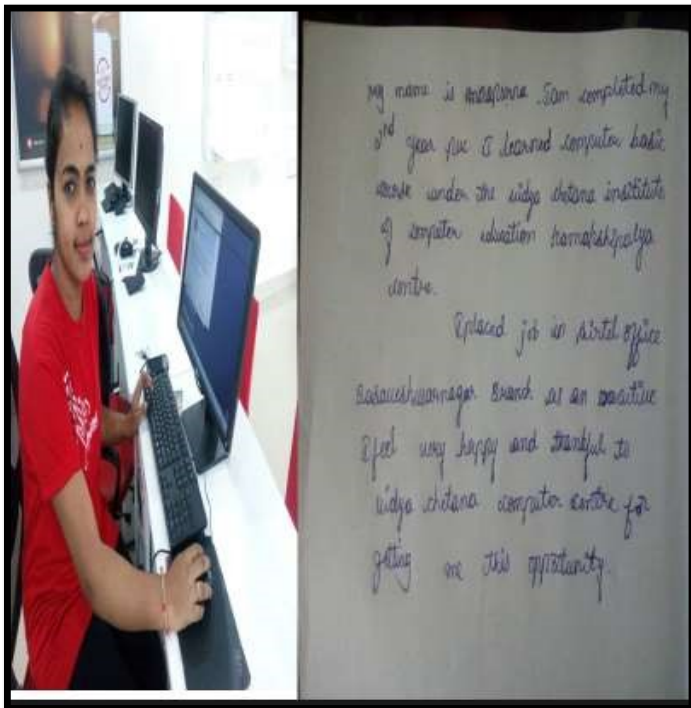

Keerthana from KP Agrahara Lab got placed as tele caller in to Planet Honda .

Lokesh is very happy that YFS created a positive impact in his life by offering free computer course and placement.

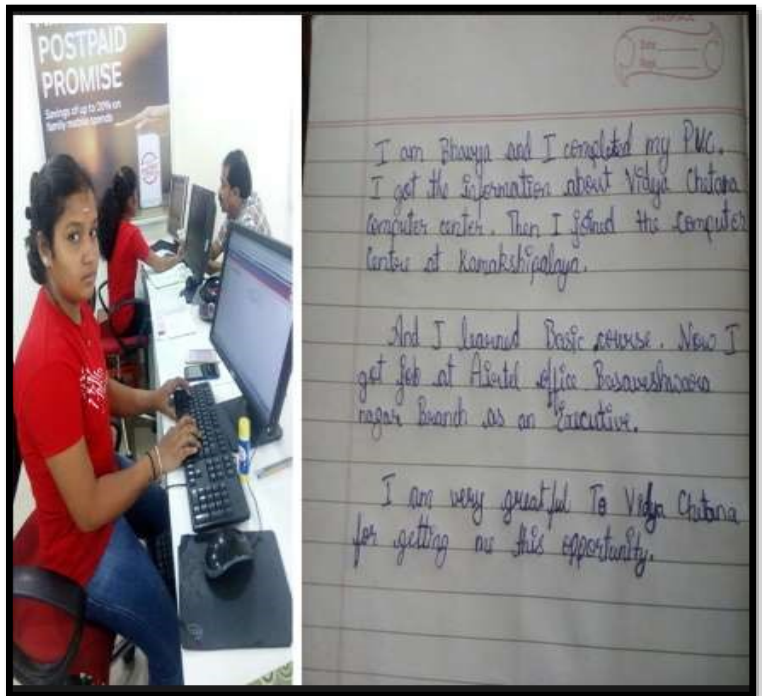

Testimonials

My name is Annapoorna. I completed my 2nd year for a diploma computer basic course under the Vidya Chitona institute of computer education Kamakshipalya centre.

Placed job in Airtel office Basaveshwara Nagar Branch as an executive. I feel very happy and thankful to Vidya Chitona computer centre for getting me this opportunity.

Annapoorna got placed in to Airtel office and expressed her gratitude to YFS.

I am Bhavya and I completed my PUC. I got the information about Vidya Chitona computer centre. Then I joined the computer centre at Kamakshipalya.

And I learned Basic course. Now I got job at Airtel office Basaveshwara Nagar Branch as an Executive.

I am very grateful To Vidya Chitona for getting me this opportunity.

Bhavya after completing her basic course placed in to Airtel office
