

Global Delivery Center - CSR group arranged Plant Visit- Service Training Centre- Pune for Manavya Children on 28th March 2015.

As part of GDC CSR "Turiyam " Program, team arranged visit for Manavya Children supported by STC team on 28th March 2015. CSR team represented by Komathi Rajesh - Head Sales Operation Delivery ,Debasish Bag- Transition Manager, Priya Nair - JLR Delivery Sr team member , Vishal Sakekar - Quality Team member along with CV Service Albert R & Rohidas Gawari. The objective of this visit was to inspire Manavya teenagers by giving them real time industry exposure so that they are able to relate it to their academics. This visit aided in socializing children with strangers and exhibit the spirit of "WE CARE". At STC-Pune E8 Block all 9 teenagers had detail interaction with Albert R & Rohidas Gawari CV-SERVICE who showed children parts of the vehicle , the sequence of making a vehicle . Followed by videos on success story of DTC -Tata Motors Marcopolo fleet service that was deployed in 2010- Common Wealth Games & Video on Tata Motor products and services. One of the best video which INSPIRED children was by watching "The Secret" . Children looking forward for many more opportunities to get the feel of external unprotected environment ,exposure to know & learn more from us. We as a team continue this journey with a vision to connect with children in every possible way.

We extend our heartfelt thank you for arranging for a plant visit & a session for our children which will help them to have clarity in their vision & will motivate them to achieve great heights. Following is the list of the Children who will be participating on 28th March for the visit. I have also mentioned their Educational Qualification for your information.

Dear Komathi & Debasish,

We would like to thank you for organizing such an informative and enlightening visit for our children and attending to their doubts and queries regarding the plant operations and manufacturing processes. All children enjoyed this visit from their hearts, as it was based on the topic for which they are most passionate about that is 'Cars'.

Manavya is always in search of those activities and opportunities which inspire our children and make them aware about what is happening in their outside world and exactly where are they today, what they ought to have to survive and make an identity in this competitive world. We hope that their visit to your prestigious company and many such more visits from you, will help to ignite the spark in our children and it will help them to break their comfort zone and be prepared for the never ending race of life.

We have attached the experience shared by Shreyas & Kiran who had visited the plant.

Thanking You,
 With Gratitude,
 Ujwala Lawate,
 Managing Trustee,

Experiences shared by Shreyas in his own words:

I recently appeared for my board examination and this whole visit turned out to be a fulfilling and enriching experience for me. I always had had a lot of curiosity about the different cars and how they work and I always tried to respond this curiosity by reading overdrive and other sports car related magazines. I got the opportunity to closely observe and experience the action in car making and so this visit was like dream come true for me. I got a chance to see very big and heavy robots who were manufacturing the different parts of the car, and we also saw the whole process of making trucks which was the most eye whispering moment of this visit.

This visit helped us to understand how a machine works on electrical basis, what is the role of clutch plate in any car and how would it get wasted because of improper use, different types of engines and how does a piston engine operate, and how the welding work is undertaken in car manufacturing plant. I came to learn how these big companies dispose their garbage and other chemical wastes

which released from this process, and I liked their process of garbage and waste management and the way they segregate their harmful waste.

I also enjoyed the movie which was displayed after visiting the plant based on will power and it further boosted our self-esteem and morale to work hard and achieve something big in our lives. The movie taught us that a man can achieve anything if he has a passion, commitment, and guts to achieve his/her goal.

End of document

Thanks to Mr. Deepak Kenkre, Albert R and Rohidas Gawari from STC for supporting GDC CSR team in making this initiative Big success. Special thanks to Manavya team for giving us opportunity to spend our day with Manavya Children.
