

WE PROMOTE AN AGENTS OF CHANGE MOVEMENT THAT, THROUGH COLLECTIVE LEADERSHIP, TRANSFORM OUR COUNTRY'S EDUCATION

Through our programs, we seek to reduce gaps in education and enhance both students' learning and competency development.

WE WORK DAILY INSPIRED BY OUR VISION:
BY THE YEAR 2032, AT LEAST 8 OUT OF 10 CHILDREN AND YOUNG PEOPLE RECEIVE EXCELLENT EDUCATION.

➔ LEADERSHIP PROGRAM

We recruit professionals to work as public teachers for two years, in classrooms with vulnerable contexts, in a Leadership Program with pedagogy, leadership and system change tools.

Program graduates are prepared to understand the education challenge. They become agents of change in the Peruvian education system and are able to carry out system reforms and innovate from their different professions.

➔ ¡QUÉ MAESTRO! / WHAT A TEACHER!

Its a training and mentoring program that complements MINEDU's efforts to strengthen teachers' pedagogical competencies. We work focusing on the teacher as a person and his or her integral development.

This program's methodology is based on learnings from the global network Teach For All, Enseña Perú's partner, and a 10-year research consolidation on classroom practices and methods from excellent teachers in vulnerable contexts (Teach Like A Champion, Doug Lemov). But it also takes into account an in-depth analysis on Peruvian teachers' training needs.

WE BELIEVE IN THE POWER OF EDUCATION, WE TRUST ALL PERUVIANS' POTENTIAL, WE WANT A COUNTRY WHERE EVERYONE IS ABLE TO ACHIEVE THEIR PURPOSE AND FULFILL THEIR DREAMS

➔ LEADERSHIP PROGRAM FOR STUDENTS

This program dreams of students changing the education reality from their school, community, city and country; students sharing their learnings with other students.

The program works with 3 main competencies: self-knowledge, social awareness and relationship skills. It is a space for them to live diverse experiences. By recognizing themselves, reflecting deeply, and strengthening their socio-emotional skills, they participate and act collectively as key actors in education

At Enseña Perú, we have been working for excellent education since 2009, and we believe that for real change in the education, it is essential to involve the entire education community.

We contribute in building synergies with students, families, communities, and authorities in order to impact and inspire them to lead from their role in the education sector and social development.
