

# What's powerful enough to bring hope to the nation of Haiti?

## *Jesus... The Music Of My Soul*

*"Music of the Heart will truly be a life changer for many young people who otherwise would have nothing to look forward to or to strive toward."*

Music is an instrument of peace, and it allows for an emotional release and a respite from the demands of day to day survival in Haiti. In a very real but abstract way, music and playing instruments teaches tolerance and diversity. In a band or orchestra no instrument is greater than the other as long as they are all playing their part and carrying their weight at the pre-ordained time. Regardless if the instrument is a tuba or clarinet, at the perfect place and time in a musical composition, both will shine and be in concert and harmony. For our students experiencing extreme poverty, Music of the Heart school program is a huge ray of hope in their life's .

Founded and established in 2011, Music Of The Heart started its first Marching Band school program in remote Haiti. The program enables youth to learn various instruments such as the clarinet, trumpet, trombone and percussion. Besides learning to play together they also learn to march together as a band. Our goal is to Equip, Empower, and Enlighten Haitian youth through Music, realizing that the power of music is transformative.

Music of the Heart Organization utilizes music as a way of fostering hope, discipline, teamwork and Christian fellowship.

You can make a difference too! If you would like to change the life of a youth in Haiti and support our incredible ministry please contact us via email at [info@musicoftheheart.org](mailto:info@musicoftheheart.org). Without the support of our donors we could not do what we do! Thank you and God Bless You!
