

## Portable Solar Power Pack & Light

*After the sun goes down each day, there are 1.3 billion people living in total darkness.*

New Vision has created the only Portable Solar Power Pack and Light system that comes in a simple kit so easy to assemble that children in villages can be taught to build lights of their own. This system provides a clean source of powerful light, is easy to carry, and even charges basic cell phones and other USB powered devices.

The New Vision's Light improves daily life. Families can breathe fresh air, children can study at night and new sources of income become possible as small businesses are improved with the simple addition of light.

By harnessing the energy of the sun and providing clean light for a family each night, New Vision's solar light is a way of improving life and empowering people in communities around the world.

# LIGHT & LIFE

### How you can share the light:

New Vision has a growing number of international community partners who desire to bring light to their community or village however they do not have the funds to do so. Here are several ways you can help through our **Light and Life Campaign**:

- **Make a Tax Deductible Donation**
- **Sponsor Lights for a Family, Orphanage, School or Village**
- **Pay Tribute to a Loved One in Your Life**
- **Educate and Fundraise with Party in the Dark.**

To order products and share the light, please call 304.457.2971 or visit [NVRE.org](http://NVRE.org)
