

FAMILY GARDEN PROJECT IN TIMES OF COVID-19

Due to the impact generated by the COVID-19 pandemic, the “Mi Huerta” project was implemented since July 2020, in the Socio Vivienda 2 and San Francisco sectors.

The objectives set for the project are:

- Strengthen family and community ties.
- Generate fresh food for families to help their subsistence, thus achieving savings and ensuring quality food and nutrition.
- Generate new learning for productive activities

STAGES OF THE PROJECT

- Training
- Sowing vegetables
- Harvest

1) Mothers and children attended scheduled trainings to learn sowing and harvesting techniques.

Cultivation techniques training

2) The project provided inputs for fifty family gardens. Which included seeds for short-cycle vegetable crops such as: tomatoes, cucumbers, carrots and fruit trees such as: soursop and mango, whose fruits can be harvested within a year.

sowing process

3) There have been several harvests of vegetables such as: tomatoes, cucumbers, carrots, green pepper, which has given great joy to children and families encouraging them to continue growing.
