

## **MBAs Without Borders**

Developing People and Nations

MBAs Without Borders has partnered with One Acre Fund (OAF) to bring a qualified MBA to Bungoma, Kenya for 3 months starting September 1st, 2007.

### **Information on One Acre Fund**

One Acre Fund is a start-up initiative that works with persistently hungry farm families in Kenya. Our program is designed for the extremely poor, but instead of giving handouts, we invest in farm families, enabling them to generate and maintain a 300% gain in income. Our "investment bundle" includes education, financing, inputs, and access to export markets.

We have been operating since January 2006, and we currently serve 350 farm families (1,500 children). Our target is to change the lives of 30,000 families (150,000 children) within five years, and scale at a 50-100% growth rate thereafter. One Acre Fund is one of the most externally-validated social start-ups of 2006, earning grants from the highly competitive Echoing Green and Draper Richards Foundations, and winning first place at the Stanford and Yale social venture competitions.

You can visit One Acre Fund at: <http://oneacrefund.org/>
