*“There is no system in the world or any school in the country that is better than its teachers.
Teachers are the lifeblood of the success of schools.”*

– Sir Ken Robinson

Vision

The Model

TALENT SOURCING

Teach For Armenia recruits top recent university graduates and young professionals to teach and drive impact on student achievement and become life-long leaders able to effect systemic change.

TALENT DEVELOPMENT

Teach For Armenia provides participants with rigorous training and professional development. Training begins with an intensive six-week immersion course, led by experienced teacher trainers, and continues with on-going teacher development support throughout the Fellows two-year commitment.

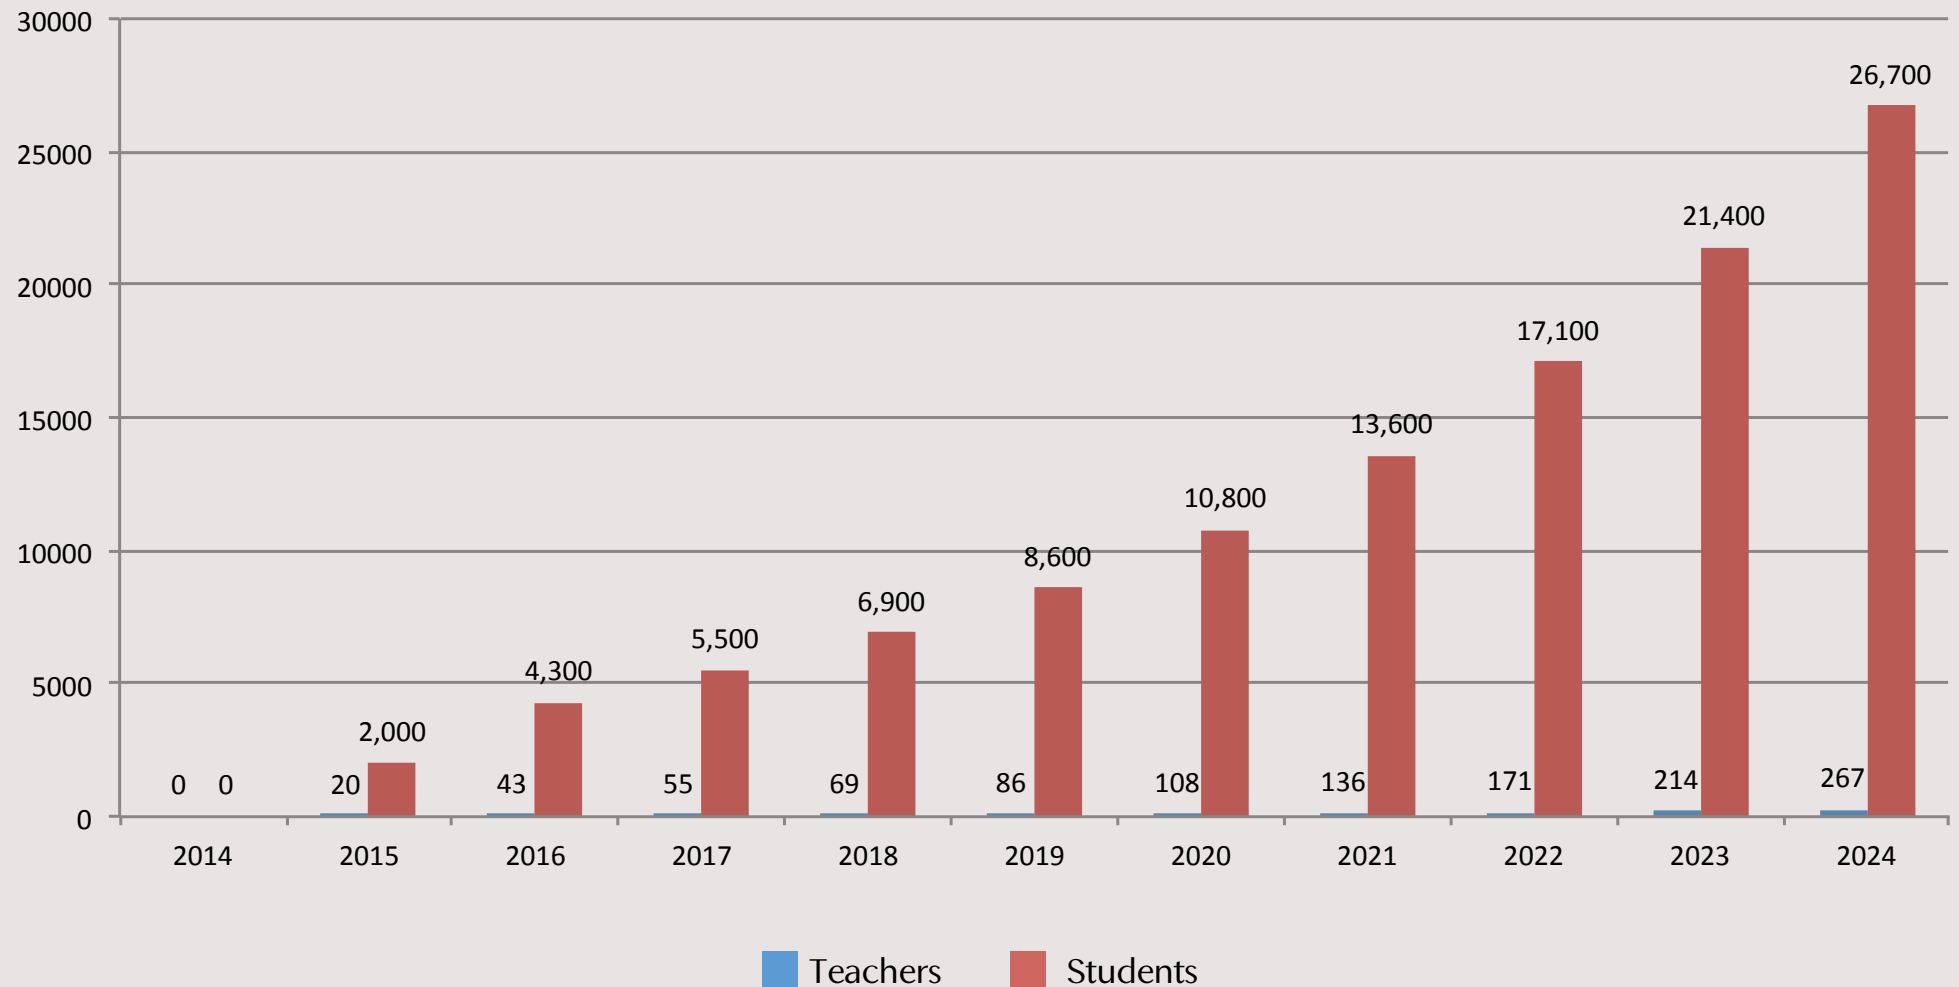

TALENT PLACEMENT

Teach For Armenia places Fellows for two years in full-time teaching positions with well-defined accountability for their classrooms. An extensive rubric is used to determine which schools are chosen, with emphasis on the need within those schools, and their willingness to partner for an extended period of time – usually at least 3 years.

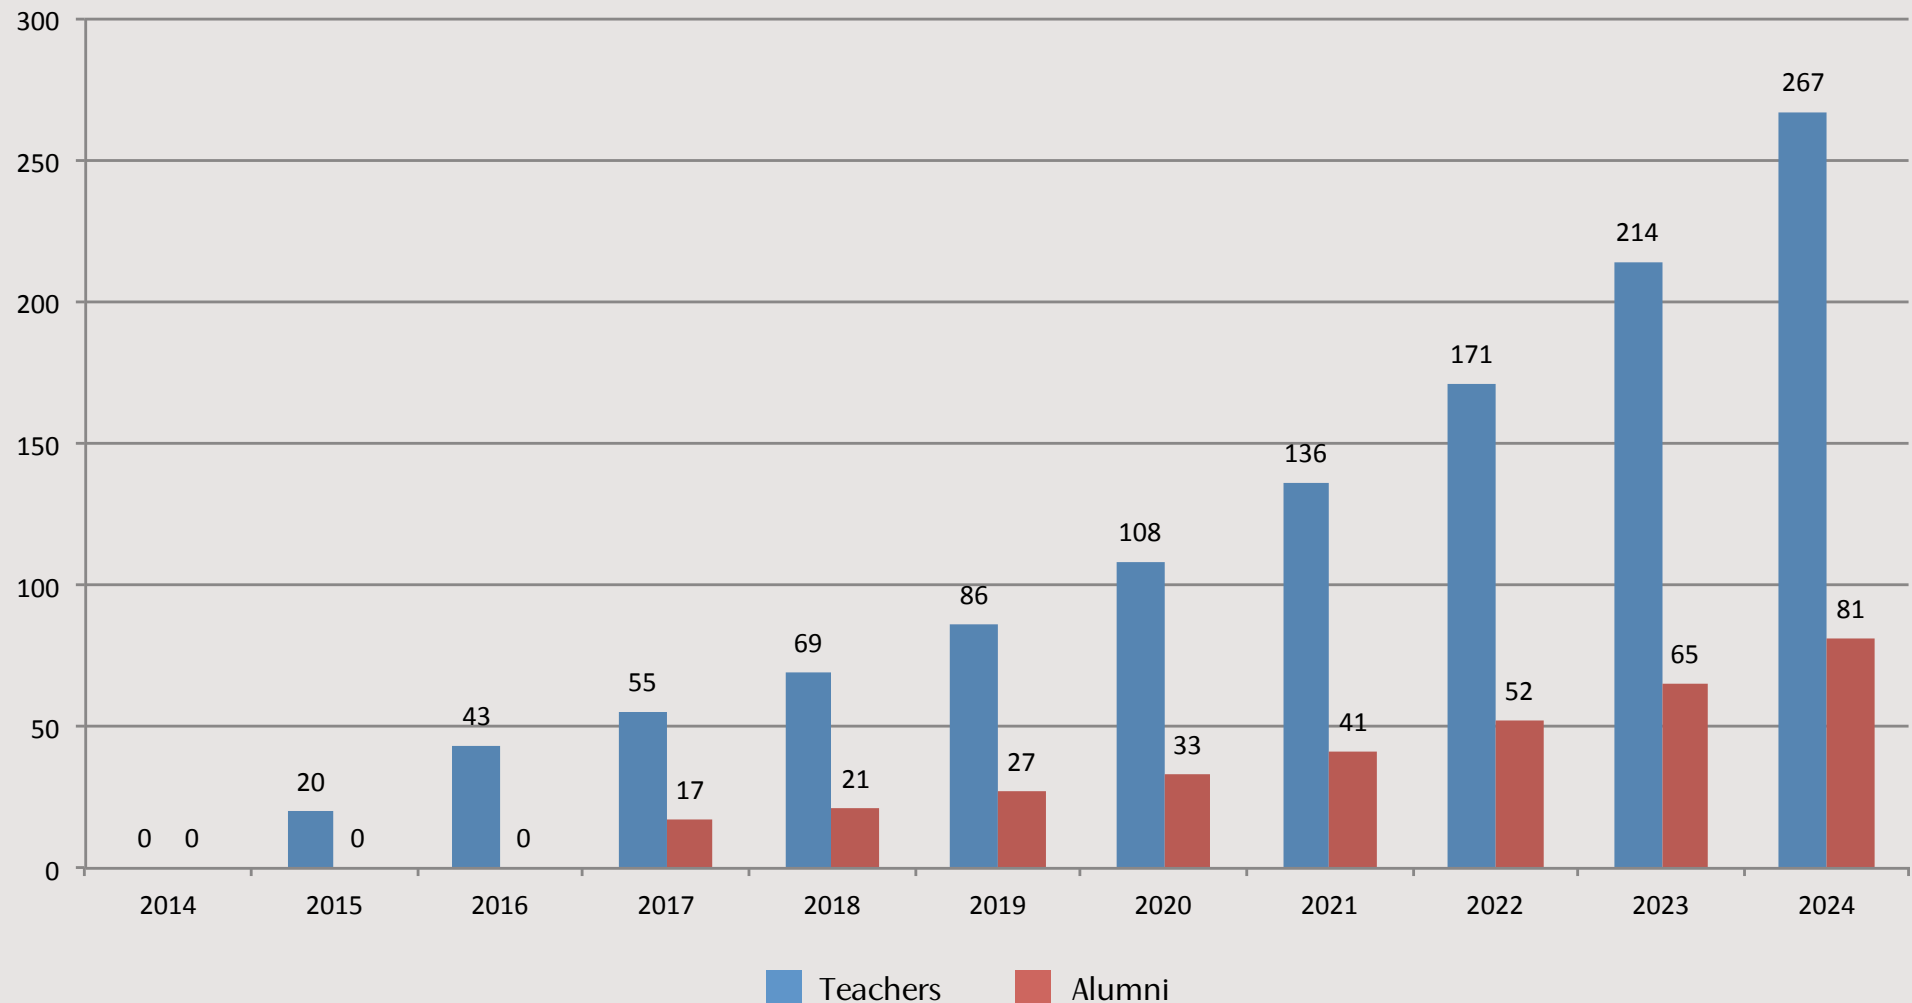

Measurable Student Impact

By doubling our corps of Teachers each year, we plan to impact over 100,000 students all across Armenia by 2024.

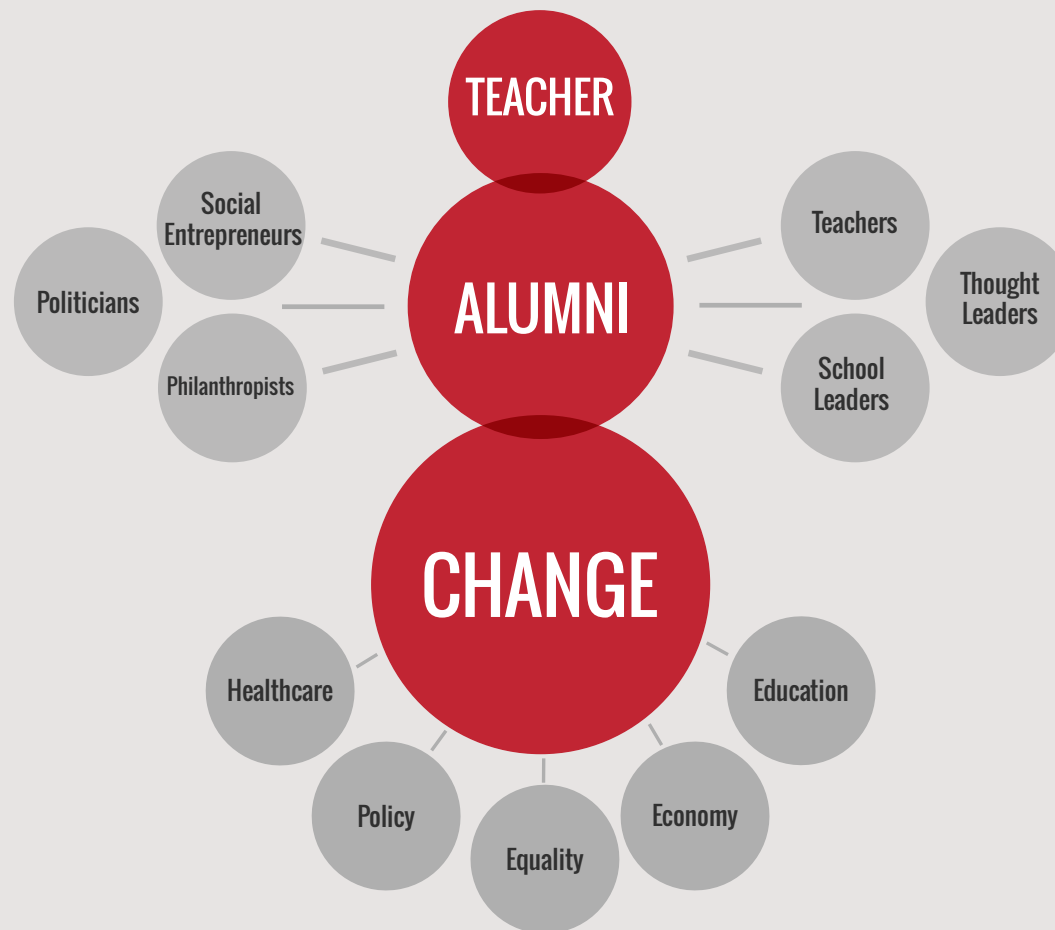

Measurable Alumni Impact

Alumni will work across all sectors throughout their lives to improve educational opportunities for all children in Armenia.

Alumni Movement

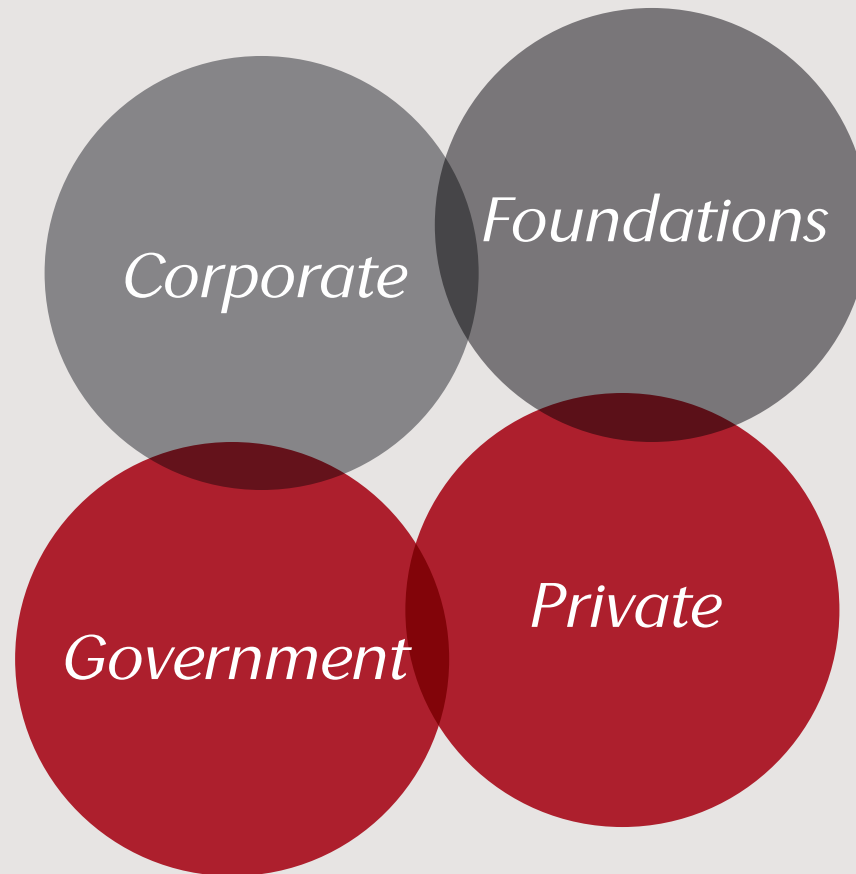

By building an alumni movement of highly educated professionals who are dedicated to serving their country's economy and civil society, Teach For Armenia, along with its supporters, will create a far-reaching network of individuals who will become vital agents of change by furthering their professional and personal ambitions in Armenia.
