

Seconde activity report of Tigoung Nonma on Project 19031 OF 2025

Construction of the 2nd workshop and their openings (doors and windows)

I-Introduction

Since the approval of Project 19031, Tigoung Nonma has been committed to strengthening the autonomy and inclusion of people with disabilities. The goal is to raise a total of USD 49,500 to acquire Tigoung Nonma's headquarters, build infrastructure and workshops accessible to people with disabilities, particularly Tigoung Nonma's disabled artisans, to facilitate wheelchair mobility for economic activities.

These funds are mobilized gradually as activities progress.

Project actions are subject to quarterly reports to track progress. This report, covering the second quarter of 2025, presents the funds mobilized to date, the activities carried out, the results achieved, and the outlook for continued development and autonomy for members.

II- Funds Raised and Activities Carried Out

Since the project began, funds have been gradually mobilized to support the planned activities.

- ✓ We have received a total of eight (8) fund transfers
- ✓ Plus, the balance carried forward.
- ✓ These funds total four hundred and thirty-three thousand five hundred and nine (433,509) CFA francs.

These resources have enabled:

- ✓ Various purchases (Purchase of cement, sheet metal, rafters, sheet metal spikes, tie rods, 80 spikes, sand, gravel, purchase of two doors and two windows, purchase of 300 bricks, purchase of rafters, sand, lintels, tar, paint + labor, etc.) to:
- ✓ Complete the first workshop, with the installation and painting of openings (doors and windows). } Begin construction of the second workshop, including plastering work and installing painted openings.
- ✓ The acquisition of the Tigoung Nonma headquarters, which forms the basis of the project's activities, was completed in 2018. The funds received during this period therefore directly contributed to the gradual completion of the workshops and progress towards the project's objectives.

III-Results Achieved

Thanks to the funds raised and the activities carried out during this quarter, the project has made concrete progress. These efforts have made it possible to:

- ✓ Complete the first workshop with the installation and painting of the openings (windows and doors).

CHEVALIER DE L'ORDRE DE MERITE

- ✓ Build and plaster the second workshop, with the openings painted.
- ✓ These achievements represent important steps towards achieving the set objectives, while also paving the way for the installation of the artisans and the future opening of the workshops.

VI-Outlook

- ✓ Continue fundraising to achieve the objectives set for this project.
- ✓ Develop economic activities, such as catering and the installation of artisans in the workshops, to improve the financial independence of members.
- ✓ Relaunch and consolidate the sale of edible ice cream, in coordination with the financial partner, to support the well-being of members and the partnership.

V-Difficulties Encountered

- ✓ The limited funds raised, which consist of only small amounts, prevent rapid acceleration of workshop construction.
- ✓ With the rainy season, particularly during the months of August and September, the main road leading to the headquarters has deteriorated significantly, making it difficult for people with disabilities to travel by tricycle.

VI-Conclusion

Despite the challenges encountered, this period has been rich in progress for the project. The completion of the first workshop and the construction of the second are testament to the commitment and perseverance of all involved. Current and future economic activities strengthen the financial autonomy of members and contribute to the sustainability of the project. These positive results encourage continued efforts and the mobilization of more resources to fully achieve the set objectives, for the benefit of members and partners.

VII-Thanks

Tigoung Nonma would like to express his deep gratitude to all partners and donors for their continued support since the project was approved. Thanks to your support, the headquarters has been acquired, the courtyard made accessible, and work on the workshops is well underway. Your contribution is essential to finalizing the workshops, installing the artisans, and opening the restaurant. We sincerely thank you and encourage you to continue supporting us in this process, in order to fully realize the vision of autonomy and effective inclusion of people with disabilities in Burkina Faso.

VIII- Summary of the financial report on project 19031

Total transfers received from November 30, 2024 to July 31, 2025: 433,509 CFA francs

Total expenses: 389,750 CFA francs

Balance : 43,759 CFA francs.

This balance will be spent in the next report.
