

sparc

specially adapted resource clubs

We're a place that's engaging, encouraging, empowering, and provides enduring learning opportunities for young adults with disabilities.

SPARC is a club!

At SPARC, young adults with disabilities gather together in local community centers to do all the things people without disabilities like to do. Activities are adapted so everyone can participate -- regardless of one's abilities. There's always something exciting happening at a SPARC club:

- Community service projects
- Entrepreneurial projects
- Life skill development
- Art and music therapy, and much more...

SPARC After Dark provides an opportunity to socialize with friends with everything from dances to Karaoke to poker nights!

SPARC Connects' team members work with members and families to organize, provide resources, and negotiate through the confusing world of benefits, medical assistance and vocational training.

SPARC relies on partnerships with local county government, foundation and private grants, public contributions and fundraising events for financial sustainability.

Three Great Locations:

Old Firehouse Teen Center, McLean VA, Providence Community Center, Fairfax VA
Southgate Community Center, Reston VA
