

Cancer Education Materials (CEM)

WHY CEM?

Low & middle-income countries bear 80% of the world's cancer burden but only 5% of global spending on cancer is expended in them. Cancer patients in these regions face enormous barriers to accessing care, particularly, inadequate education about the disease and its treatments, leading to poor outcomes. Globe Oncology (GO) is elevating awareness and dispelling misconceptions with a culturally appropriate education tool for populations with low literacy levels. The tool inspires patient-provider conversation and teaches patients and families the importance of treatment adherence. The result of this low-cost solution is reduced suffering and improved outcomes.

2018 Progress

- Improved download tool
- 55 downloads
- 7 translations + 3 new countries
- Questionnaire launch

2019 Targets

- Establish project plan
- 6 additional translations
- Develop new modality for breast cancer
- Test and adapt for use in Nigeria + translate to 4 local languages
- Monitor usage via bi-annual questionnaire launched October 2018
- Document patient / provider feedback + detailed progress at select sites
- Increase online reach and accessibility

Needed Funding:

- \$145,000**
- New translations+printing: \$7,000 x 10
- New modality: \$20,000 x 1
- Nigeria Implementation: \$30,000
- Accessibility + Monitoring:

Bringing the best in cancer care to underserved patients globally

"I like the booklet. It brings me comfort. It talks about what will happen to me, and what I can do about it. There are things I didn't know, and things I did know but that I forgot."

CARING FOR PEOPLE WITH CANCER

Be Alert
You need to be aware of people who are sick, especially those who are not eating, drinking, or sleeping. This booklet, picture, and video will help you understand the signs and symptoms of cancer.

Get Checked
You should go to the doctor or hospital if you have any of the signs and symptoms of cancer. The doctor will check your body and ask you questions about your health. Cancer can be found early and treated.

Questions About Medicine
If you have any questions about what people with cancer should do, ask your doctor. The doctor will tell you what to do and how to take your medicine.

Ask For Help
If you have any questions about what people with cancer should do, ask your doctor. The doctor will tell you what to do and how to take your medicine.
