

Seema Begum, 12 years

A big family including 7 sisters and a brother, it was indeed difficult for Seema's father to run the family by selling fruits in the local market. As a result, Seema was never admitted to any school.

Like other kids, DMR had been an opportunity for Seema to pursue her education. Today, Seema aspires to become a Teacher.

Your support at this crucial stage will definitely go a long way in terms of empowering Seema with Education.
