The AVE Bierman VW Caddy Maxi Wheelchair Access Conversion

VW CADDY MAXI AVE - WAV

The Volkswagen Caddy Maxi is the ideal wheelchair accessible vehicle. This well-sized vehicle is ideal for family, fleet or taxi use.

This conversion is offered for both the Caddy Maxi Crew Bus and Caddy Maxi Trendline models.

- **This conversion has no impact on the vehicle warranty.**
 - AVE-Bierman guarantees a warranty of 3 years or 150,000km (100,000 miles), whichever comes first, on the parts of the Bierman conversion kit.
 - The AVE-Bierman conversion carries a letter of No Objection from Volkswagen.
 - The conversion complies with all the European approvals.
 - The Q'Straint Four-point wheelchair restraint system complies with ISO 10542.
 - The conversion components are kept in stock, and there is a short lead time for production.
- Several optional extras are available, including:**
- An additional headrest and back support as a safety feature to prevent whiplash.
 - An electro-hydraulic lowering system that makes the entrance to the vehicle less steep.

ENGINEERING VEHICLES IN AFRICA, FOR AFRICA

NEW WAV - A PROFESSIONAL CONVERSION

1 All European Approvals

The conversion is thoroughly engineered and tested by certified engineers, making it compliant with all the European approvals.

2 Rear Bumper Replaced

The rear bumper will be replaced onto the rear tailgate. The original parking sensors can also be replaced.

3 OEM Look

The lowered floor is made of Glass Fiber Reinforced Polymer, which ensures an Original Equipment Manufacturer look (without corrosion).

4 100% Gas and Water-tight

The vehicle has a 100% gas and water-tight rear side due to the continuation of rubber.

5 ISO-10542

The conversion is tested with Q'Straint wheelchair-restraint systems, compliant with ISO-10542.

6 Caddy Maxi Crew Bus

The AVE-Bierman WAC is available in a double door Crew Bus version.

7 Taxi

The length of the Caddy Maxi allows it to transport 6 passengers including the wheelchair passenger.

8 Lowering System

The optional lowering systems makes the entrance of the vehicle less steep.
