

From Struggles to Self-Reliance: Vishal's Story

Your Support is Creating Change!

Thanks to your generous contributions, children with deafblindness and multiple disabilities are accessing quality education, building independence, and transforming their lives. Here's how your support has made a difference.

Vishal, a 12-year-old from Gujarat, was born with cerebral palsy and hearing impairment. Before joining our program, he faced severe mobility, communication, and social challenges, making him highly dependent on his family.

The Intervention:

- Personalized therapy sessions improved his mobility, enabling him to walk independently to school.
- Special educators provided sign language and lip-reading training, helping him communicate effectively.
- Fine motor skills activities improved his ability to hold objects, write, and perform daily tasks.
- Life skills training helped him manage daily chores and money, fostering independence.
- Social integration initiatives encouraged him to participate in school activities and sports, building his confidence.

The Impact:

- Vishal now attends school independently, studies in the 8th standard, and actively participates in class.
- He has learned to write his name and address, count up to 50, and follow school lessons more effectively.
- His shyness has significantly reduced, and he enjoys interacting with peers and teachers.
- He understands money transactions, which has enhanced his self-reliance.

Parent's Perspective: *"We are so proud of Vishal. He strives to learn new things every day and finds ways to overcome his challenges. His progress brings us immense joy and hope for his future."*

Thanks to Global Giving and the supporters for being part of this transformation and bringing light to those living in darkness. **Together, we can continue to transform lives and empower more people like Manish to reach their full potential!**
