

*If the money we donate helps one woman to change her life, those funds are well spent.*

Dear friend,

In life-and-death matters such as the covid-19 pandemic, a focus on financial matters can seem misplaced. But for the world's poor, the financial impacts of covid-19 can be devastating and far more immediate.

In Fundación ProEmpleo D.F. we continue to work very hard to raise the missing funds for the project, and we are confident that the business training that we will offer for Yucatan women will promote their desire to be resilient.

While, we trained a group of beneficiaries, our interest to impact in business education to more women, will be related to the goal of teaching them how to develop their economy and provide them the tools for their empowerment as humans and use their skills to become community leaders.

We are promoting the project through the following means:

- Promote the project through posters in our facilities.
- Discuss the project with entrepreneurs and businessmen who want to join the cause.
- Through social networks and the web.

Our next step is to seek a strategic alliance for the project and find other contributions to work together with Global Giving and together complete the project objective

We greatly appreciate the contributions he has made to our cause and invite you to help us spread the cause with his family and friends.

Thank for trust in Fundación ProEmpleo D.F. and to be part of the dreams of the women who want access to a productive life.

Regards,

Patricia Larios, Director.
