2. PRESENTATION

Title:

Let's prevent together children sexual abuse

Beneficiaries:

- 210 children
- 35 parents
- 20 teachers

Duración del programa

The Project is design to develop in 6 months.

3. JUSTIFICATION

Currently it is necessary that adults acquire a holistic view on its way of perceiving the child, so should reflect on their role as mediators in interactions between the child and its context and taking into account as stated and based on the reports of the UN and the ICBF, among others, as well as the social sciences and health professionals. It is important to build projects of prevention of sexual abuse in boys and girls, in order to contribute to the personal, family and social well-being of all communities.

According to the National Institute of legal medicine and forensic sciences, in 2014 received 10.442 cases of alleged sex crimes, of whom 9.104 were children under 14 years old.

Viewing the problems that children have to face in Colombia, Corporación CARIÑO designed a strategy oriented to provide preventive actions such gives population tools for the management of the problem, to make themselves the protectors leaders in the community.

For this reason the organization has been implementing prevention programs since was created in 1.978 reaching 15 communes and 5 townships, with an approximate total of beneficiaries of 250,000 people; likewise with their promotional projects reaching 17 regional channels of television, 15 radio stations and other media nationwide.

4. OBJECTIVES

GENERAL OBJECTIVE

Open training spaces that allow the delivery of elements and tools to help the educational community to develop preventive and protective factors against child sexual abuse and the improvement of the quality of a population's life and mental health.

SPECIFIC OBJECTIVES

- Recognize the family and the school as a fundamental space for the formation of skills of boys and girls in the perspective of their rights and commitments.
- Encourage the children to express their feelings and emotions with regard to the people who surround them, by identifying when they are being sexually abused and have the ability to ask for help.
- Provide tools to children about your self-care and respect for your body, avoiding as well that they are victims of mistreatment and sexual abuse.

5. METHODOLOGY

The project is as follows:

Students receive six sessions with an intensity of 2 hours per workshop.

Each parent receives a 2 hour session.

Teachers have one session of two hours each, using a methodology that favors the collective construction of knowledge, allowing participants to learn, build and reflect.

MODULE FOR CHILDREN:

The themes in the sessions are:

- Children as subjects of rights.
- The care of my body in daily life.
- Child sexual abuse.
- We will share experiences.
- Protecting my-self.
- Building care pathways.

TEACHERS, FAMILIES AND SIGNIFICANT ADULTS:

- Child sexual abuse detection, construction of protective environments and care pathways in cases of child sexual abuse.
