

My name is Grace I live in King of Prussia and am a single mother of four children. Their ages are 10, 5, 3 year old twins. My kids go to Candlebrook. My ten year old daughter was in desperate need of a computer due to the school district leaning more towards technology. The children have a lot to do online. My diligent little daughter was doing her computer from our phone screens when we couldn't go to the library. Every time I tried to save up for one something came up. Finally I was able to get one for Christmas, and then I got into two car accidents within 24 hrs from which im still recovering. So needless to say all of our savings dwindled and again no computer. A friend of mine just happened to bring you guys up in conversation and I came to the website. And now im here picking up our new gateway to learning. My heart is overjoyed for the volunteers whom are fortunate enough to donate these computers to those who need them. Thank you so much and may god bless you tremendously.

Grace
