ONE LOVE EXISTS FOR ONE REASON

Yeadley Love was killed and her death was avoidable. Then a senior at the University of Virginia and three weeks shy of her graduation, Yeadley was beaten to death by her ex-boyfriend.

Devastated by her loss, Yeadley's family created One Love, a foundation that educates young people about the difference between healthy and unhealthy relationships so that they may seek help before an abusive relationship escalates to violence.

OUR APPROACH: ENGAGE COMMUNITIES IN A MEANINGFUL WAY

Through a dynamic, multi-layered education and social engagement campaign, One Love educates and equips young people with knowledge to help them develop healthy relationships and the tools to avoid abusive ones.

By intervening early with content and conversations that highlight the difference between healthy and unhealthy relationships, we are improving young people's relationship IQ and helping them navigate their relationships in a positive way.

LEARN: DISCUSSIONS THROUGH INNOVATIVE CONTENT

People are never too young (or old) to learn about healthy relationships. In fact, we need *everyone* to participate in this conversation to create real change. Our preventative approach gets young people talking *earlier* and *more often*, as we pair educational videos with research-based discussion guides to foster deep conversations amongst peers. You can access all discussion guides by going to www.joinonelove.org/act/start-convo/. Here is a snapshot of our content offerings, followed by suggested distribution options categorized by age group:
