Smart Response

## SUSTAINABLE DEVELOPMENT GOALS

**1.2M+** LIVES IMPACTED

**61K+** VOLUNTEERS

**119** DISASTER PROGRAMS

**19** COUNTRIES SERVED

**305** SCHOOLS COMPLETED

**112K+** CHILDREN BACK TO SCHOOL

**96¢** OF EVERY DOLLAR SPENT ON OUR PROGRAMS

## ACTION AT ALL HANDS AND HEARTS

For more than 15 years, we've striven to undertake activities that provide long-term solutions to the impact of disasters globally. Our work has intrinsically been tied to elements of sustainable development, and as a nonprofit committed to serving communities after disasters, we're uniquely positioned to demonstrate action at a global, local and individual level.

### Our Mission

All Hands and Hearts effectively and efficiently addresses the immediate and long-term needs of communities impacted by natural disasters. We communicate directly with local leaders and community members and then deploy our unique model of engaging volunteers to enable direct impact, helping to build safer, more resilient schools, homes and infrastructure.

### Our SDG Alignment

Our mission and expertise in providing effective disaster relief to vulnerable communities align us with several Sustainable Development Goals. Through our unique volunteer model, we accelerate progress toward Goals 4, 6 and 11.

We believe in the importance of the UN's Sustainable Development Goals in creating a sustainable future for all. **Join us, during this Decade of Action, to build a better future.**

The **UN Sustainable Development Goals** (SDGs) are the blueprint to achieve a better and more sustainable future for all. The 17 Global Goals and 169 targets will stimulate action in areas of critical importance for humanity and the planet. With just 10 years to go, an ambitious global effort is underway to deliver the 2030 promise.

The Decade of Action calls for accelerating sustainable solutions to all the world's biggest challenges, ranging from poverty and gender to climate change, inequality and closing the finance gap.

## OUR SDG ALIGNMENT

Through our unique volunteer model, we accelerate progress toward Goals 4, 6 and 11.

### 4 QUALITY EDUCATION

#### Goal 4: Quality Education

Obtaining a quality education is the foundation to creating sustainable development. In addition to improving the quality of life, access to inclusive education can help equip people with the tools required to develop innovative solutions to the world's greatest problems. Improving access to quality education in a post-disaster context is a focus of the organization, and we have a proven track record of impact across the world. Specifically, we help to build educational facilities and minimize the disruption of disaster events on education within vulnerable communities.

### 6 CLEAN WATER AND SANITATION

#### Goal 6: Clean Water and Sanitation

Millions of people around the world lack access to clean water and adequate sanitation and hygiene facilities. This issue is compounded by disasters which may damage existing infrastructure. Our WASH initiatives aim to improve the health of children and community members by reducing the incidence of water and sanitation-related illnesses.

### 11 SUSTAINABLE CITIES AND COMMUNITIES

#### Goal 11: Sustainable Cities and Communities

Our long-term commitment to disaster-affected areas enables us to work alongside communities to implement a more sustainable solution together. We support the building of an inclusive, safe, resilient infrastructure to help people recover and mitigate the risks of future disasters.
